Governor Kelly Announces Kansas Receives More than \$3.6M for Youth Suicide Prevention and Early Intervention

TOPEKA – Governor Laura Kelly announced today that the Kansas Department for Aging and Disability Services (KDADS) is receiving more than \$3.6 million as part of a five-year federal grant to implement youth suicide prevention and early intervention strategies. The funding will help reduce suicides and suicidal ideation in Kansans aged 10-24 years. “Improving mental health in every community, including among our youngest Kansans, is essential to creating a healthy, thriving Kansas,” Governor Laura Kelly said. “This funding will further

our efforts to reduce suicide rates by providing support and resources for Kansans in crisis.” The funding for the Garrett Lee Smith State/Tribal Suicide Prevention Program Grant comes from the U.S. Department of Health and Human Services (HHS) Substance Abuse and Mental Health Services Administration (SAMHSA). It will support KDADS in reaching young Kansans through schools, educational institutions, juvenile justice systems, substance use programs, mental health programs, and the foster care

system. “This grant funding tells young people across Kansas that ‘we hear you asking for support and help, and your voices are being heard,’” KDADS Secretary Laura Howard said. “This federal funding allows us to implement effective programs at the local level where we can reach our younger population who are struggling with their mental health and guide them to the resources they need in their community.” The award will focus on strategies and initiatives for youth and young adults residing in Wyandotte County and

the 12-county southeast region of Kansas (Allen, Bourbon, Chautauqua, Cherokee, Crawford, Elk, Greenwood, Labette, Montgomery, Neosho, Wilson, and Woodson). “Mental health is health, and it’s critical we treat it as such,” Representative Sharice Davids, KS-03, said. “Through this new programming, we can help reach kids who are struggling and ensure they are supported and cared for. I’m proud to have helped bring these much-needed resources home to create healthy, resilient communities in Wyandotte County and across Kansas.”

With this funding, KDADS will focus on addressing strategic directions identified by the National Strategy for Suicide Prevention and the recommendations created by the Kansas Governor’s Mental Health Task Force

(2017) and the Special Committee on Mental Health Modernization and Reform (2021-2022). Through this award, KDADS aims to:

- Strengthen and broaden public communication efforts about risk and protective factors for suicide;
- Improve suicide risk recognition among youth organizations and professionals by increasing connections to culturally sensitive, consumer-responsive treatment services;
- Evaluate, develop, and implement evidence-based suicide screenings at behavioral health care and educational sites;
- Implement and enhance safety net support, including the creation of safety plans and referrals to treatment;
- Expand access to suicide post-intervention counseling

by providing training; • Improve statewide capacity to collect and analyze data related to suicide prevention efforts, and suicide morbidity/mortality. “The award of Garrett Lee Smith funding to support suicide prevention in Kansas is recognition of the incredible work done to this point and the exciting potential for collaboration across sectors to reduce suicidality and deaths of despair in our youth,” Bailey Blair, Kansas Suicide Prevention Coalition president, said. “The influx of resources combined with the infrastructure created by suicide prevention advocates and allied professionals across the state will allow for novel and responsive solutions to issues facing youth in Kansas and support the integration of suicide prevention practices across the lifespan.”

LEGAL NOTICE**STATE OF KANSAS DEPARTMENT OF HEALTH AND ENVIRONMENT NOTICE CONCERNING PROPOSED KANSAS AIR QUALITY PREVENTION OF SIGNIFICANT DETERIORATION (PSD) CONSTRUCTION PERMIT MODIFICATION**

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a revision to a previously issued air quality construction permit. Amsted Rail applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to modify the process for the pressure pouring station at their facility located at 7111 Griffin Rd in Kansas City, Kansas. Emission of particulate matter (PM), PM with aerodynamic diameter equal to or less than 10 microns (PM10), PM with aerodynamic diameter equal to or less than 2.5 microns (PM2.5) volatile organic compounds (VOCs), oxides of nitrogen (NOX), oxides of sulfur (SOX), and carbon monoxide (CO) were evaluated during the permit review process.

The permit modification is to be issued in accordance with the provisions of K.A.R. 28-19-350, Prevention of Significant Deterioration (PSD) which adopt the federal standards, procedures, and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as "attainment" under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or is better than the National Ambient Air Quality Standards (NAAQS).

The revisions proposed by Amsted Rail include a re-evaluation of the Best Available Control Technology (BACT) limits for PM and NOX set for the pressure pouring station. Less than significant increases will occur in emissions of PM and NOX as a result of the proposed revisions to the pressure pouring station.

The PSD regulations require evaluation of emission reduction techniques to identify the BACT for each regulated pollutant for which the emission rate exceeds the PSD significant level. The purpose of BACT is to affect the maximum degree of reduction achievable, taking into account energy, environmental, and economic impacts for each pollutant under review. Evaluation of the estimated emissions for the proposed project indicates that the emission rate of oxides of nitrogen, sulfur dioxide, carbon monoxide, particulate matter, and volatile organic compounds do not exceed the significance levels. Amsted Rail conducted the required BACT analyses for PM and NOX. The department has reviewed Amsted's BACT analyses and concurs with their findings.

No assessment of visibility impacts at a Class I Area was performed by the facility because there are no Federal Class I areas located within 300 km of the proposed facility. The facility did not conduct a visibility impact analysis for a local Class I area because the proposed modification does not exceed the PSD significance level and is not expected to impact visibility.

A public comment period has been established to allow citizens the opportunity to express any concerns they may have about this proposed permitting action. The public comment period is to begin on Thursday, June 22, 2023,

LEGAL NOTICE

and end at noon on Monday, July 24, 2023. All comments should be submitted in writing to Ryan Bowles, Unified Government Public Health Department/Division of Air Quality, 619 Ann Ave, Kansas City, KS 66101 or presented at a public hearing.

Any member of the public may request to hold a public hearing to receive comments on the proposed issuance of the draft air quality construction permit. A written request to hold a public hearing should be sent to the attention of Ryan Bowles at the address listed above or by FAX to (785) 559-4256 and must be received by noon on Monday, July 24, 2023.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review for a period of 30 days from the date of publication during normal business hours (8:00 AM to 5:00 PM) at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. Also, a copy of the proposed permit can be reviewed, at the Unified Government Public Health Department/Division of Air Quality, 619 Ann Ave, Kansas City, KS 66101.
