Kansas Cold Weather Rule takes effect

TOPEKA – The Cold Weather Rule, designed to help Kansans who are behind on their utility payments avoid disconnection during the winter months, began on Nov. 1 and will remain in effect through March 31.

While the Cold Weather Rule is in effect, utility companies cannot disconnect a customer’s service when the local temperatures are forecast to drop below 35 degrees within the following 48-hour period. The Kansas Corporation Commission, the agency that regulates public utilities in the state, implemented the rule in 1983 to prevent utility companies from disconnecting a customer’s natural gas or electric service during periods of extreme cold.

The Cold Weather Rule also requires utility companies to offer a 12-month payment plan to allow consumers to maintain or re-establish service. Any residential customer with a past due balance will qualify for payment arrangements; however, it is the customer’s responsibility to contact their gas or electric company to make those arrangements.

The Cold Weather Rule applies only to residential customers of electric and natural gas utility companies under the KCC’s jurisdiction, however many municipal utilities and co-operatives have similar winter weather policies.

Information about the Cold Weather Rule is available on the Commission’s website.
