Stock Market Insights

Is Rising Market Turbulence a Real Trend or Just Isolated Events

Dr. Richard Baker, AIF®, is the CEO and executive wealth advisor at Fervent Wealth Management.

I was recently speaking with one of my best friends, who is a pilot, about flight turbulence. He said there are two kinds of turbulence: natural turbulence caused by weather (wind) and pilot-induced turbulence, which happens when a pilot makes a mistake.

We are beginning to see some increased turbulence (market

volatility), but is it a change to overall market conditions or is it a few isolated mistakes by companies?

The stocks have been resilient over the past two weeks despite rising US/China trade tensions, increased stock volatility, and regional bank losses. These conditions have pulled the S&P 500 off its record highs, but overall, markets remain high.

There are three instances of market turbulence that I

am watching to determine if they are a trend or an isolated event: credit issues, unusually high bank borrowing from the Federal Reserve, and lower-than-normal S&P 500 defensive sector weights.

Credit Issues

Bankruptcies are affecting banks: JPMorgan Chase disclosed on the bank's quarterly earnings call last Tuesday that it had to take a \$170 million write-off in the third quarter due to the bankruptcy of subprime auto

lender Tricolor. They also mentioned being affected by First Brands (auto parts) bankruptcy. Their CEO, Jamie Dimon, who is often a pessimist, suggested it could be the beginning of more credit problems to come by saying, "When you see one cockroach, there are probably more," according to the Wall Street Journal.

Bank Borrowing from the Fed

Strangely, US banks borrowed \$8 billion from the Federal Reserve's Standing Repo Facility (SRF) in the last few days. The SRF is a newer Federal Reserve tool that serves as an emergency backup for banks experiencing liquidity shortfalls. This is the largest daily borrowing from the Fed since the COVID-19 pandemic, excluding the normal end-of-quarter times. This might indicate that some credit tightening is coming due to limited liquidity, which could slow business growth.

Low Defensive Sector Weights

Consumer staples, health-care, and utilities make up the defensive sector of the S&P 500, which is typically where investors keep holdings because they tend to be more stable during economic downturns. Their percentage of the overall S&P 500 has fallen to an all-time low of 16%. The last time the defensives were at an all-time low was at the peak of the dotcom bubble in March 2000, when defensive sectors represented 17% of the S&P 500.

The recurring theme here is the technology sector, which hit a record high of 35% weighting

this month (above the 34% weight in March 2000). I don't think technology is in a bubble. Still, the stock market's built-in hedge to weather market volatility is unusually small, which means more stocks are at higher risk of being hurt by a market pullback.

I doubt these things develop into a negative trend. Though I expect a short-term pullback, I feel good about the market in general for the rest of the year and 2026. Yet it does pay to be vigilant. Portfolio-wise, stay active, keep allocations near neutral, and pay attention to who is being affected by credit issues and liquidity. Opportunities are out there if you know where to look.

My friend and I were at the airport watching a small plane land when we were discussing pilot-induced turbulence. The small plane was landing with a little crosswind, but my friend pointed out that the plane was swinging side to side so violently because the pilot was making a series of overcorrections to the wind. It landed with no problems, but the passengers had a bumpier ride than they should have because of their pilot. With your investments, make sure your pilot has a steady hand and a lot of experience in various market scenarios.

Have a blessed week!

Section 2. Authorization of and Security for the Bonds. The Issuer is hereby authorized and directed to issue the Bonds for the purposes set forth in this Ordinance; provided, however, that issuance of the Bonds shall be conditioned upon receipt by the Issuer of a commitment for title insurance and other evidence that any existing litigation regarding the Project does not present a material risk to the Issuer. Issuance of the Bonds shall be conclusive evidence that such condition has been met. The Bonds shall be dated and bear interest, shall mature and be payable at such times, shall be in such forms, shall be subject to redemption and payment prior to the maturity thereof, and shall be issued in the manner prescribed and subject to the provisions, covenants and agreements set forth in the Indenture. The Bonds shall be special limited obligations of the Issuer payable solely from the trust estate established under the Indenture, including revenues from the lease of the Project to the Company. The Bonds shall not be general obligations of the Issuer nor constitute a pledge of the faith and credit of the Issuer and shall not be payable in any manner by taxation.

The Issuer hereby determines that pursuant to the provisions of K.S.A. 79-201a Twenty-Fourth, the Project purchased or constructed with the proceeds of the Bonds is subject to exemption from ad valorem property taxes for ten years commencing the year following the year in which the Bonds are issued, provided proper application is made therefor to the Kansas Board of Tax Appeals. The Issuer further determines that the Project shall be exempt from such taxes for ten years, commencing in the year after the Bonds are issued, subject to an annual payment in lieu of taxes and other terms and conditions of the PILOT Agreement. Notice Concerning Proposed Kansas Air Quality PSD Construction Permit Modification

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed modification to a previously issued air quality construction permit. Kansas City, Kansas Board of Public Utilities, Nearman Creek Power Station (BPU) has applied for an air quality PSD construction permit modification. BPU applied to modify the startup and shutdown provisions in the PSD construction permit dated October 12, 2004, modified October 18, 2005. Emission of particulate matter (PM), PM with less than or equal to 10 micrometers in aerodynamic diameter (PM10), PM with less than or equal to 2.5 micrometers in aerodynamic diameter (PM2.5), volatile organic compounds (VOC), oxides of nitrogen (NOX), sulfur dioxide (SO2), carbon monoxide (CO), lead, hazardous air pollutants (HAPs), and sulfuric acid mist were evaluated during the permit review

LEGAL NOTICE

process. Only those provisions that are being revised by this permit action are open for comment at this time.

The permit is to be issued in accordance with the provisions of K.A.R. 28-19-350, Prevention of Significant Deterioration (PSD), which adopt the federal standards, procedures, and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as “attainment” under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or is better than the national ambient air quality standards (NAAQS).

The PSD regulations require evaluation of emission reduction techniques to identify the best available control technology (BACT) for each regulated pollutant for which the emission rate exceeds the PSD significant emission rates. The modification project does not exceed the PSD significant emission rates, so KDHE did not re-evaluate BACT during the permit review.

An ambient air quality impact analysis was performed on the air emissions of PM10, NO2, and CO from the proposed project. The analysis demonstrated no significant impact on ambient air quality.

A public comment period has been established to allow citizens the opportunity to express any concerns they may have about this proposed permitting action. The public comment period is to begin on October 30, 2025 and end on December 1, 2025. All comments should be submitted in writing to Stephen Bartels, KDHE/Bureau of Air, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366.

Any member of the public may request to hold a public hearing to receive comments on the proposed issuance of the draft air quality construction permit. A written request to hold a public hearing should be sent to the attention of Stephen Bartels, KDHE/Bureau of Air, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 or by FAX to (785) 559-4256 and must be received by noon on December 1, 2025.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review for a period of 30 days from the date of publication during normal business hours (8:00 AM to 5:00 PM) at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. Also, a copy of the proposed permit only can be reviewed, at the Wyandotte County Division of Air Quality, Kansas City, Kansas 66101. To obtain or review the proposed permit and supporting documentation, contact Stephen Bartels, (785) 296-6421, at the central office of the KDHE and to review the proposed permit only, contact Jennifer Stewart, (913) 573-6700 in the Wyandotte County Division of Air Quality. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website, <https://www.kdhe.ks.gov/413/Public-Notices>.
