Stock Market Insights

Why Investors Should Watch Inflation and Stock Valuations Right Now

Dr. Richard Baker, AIF®, is the CEO and executive wealth advisor at Fervent Wealth Management.

My college-aged son called me upset a few weeks ago. The water pump went out and the head gasket blew on the car he bought himself. He said he saw the temperature gauge go up, and he pulled over as fast as he could, but it was too late; his engine was ruined. I'm starting to watch the market temperature gauge go up, but hopefully it will have better results.

One of my core investment beliefs is that news headlines move markets in the short term, but market fundamentals drive them over the long haul. We have experienced this over the last few years with the Russia/Ukraine war, the tariff policy selloffs, and the current Iran war. Yet after every sell-off, the market rebounded quickly because of the underlying strength in corporate earnings.

Record-setting market highs make everyone feel better, and the S&P 500 is up 17% since

March 30, 2026. That's all good, but the forward price-to-earnings ratio (P/E) is getting nervously high, which means that the market might be a little too optimistic.

Here are a couple of topics I'm watching:

Inflation Is Starting to Run Hot

It seems like the stock market has ignored rising oil and gas prices. The effects of the 11-week closure of the Strait of Hormuz, which removed key oil supplies from the global

economy, are starting to be felt by consumers.

Inflation showed its ugly head in the April Producer Price Index (PPI), which came in three times higher than the Dow Jones forecast. This was the largest monthly gain since March 2022, when prices rose more dramatically after Russia invaded Ukraine. This was primarily due to higher energy prices, but also due to a surprise increase in shelter costs, showing that rent hikes and higher mortgage rates are taking a toll. However, the reasons for the current increase in inflation are the same as they were back then: energy, food costs, and core goods.

Moderate inflation is manageable, but higher or unpredictable inflation can put downward pressure on markets. If inflation continues to rise, Fed rates are likely to follow, and regardless of how well companies are doing, higher interest rates lead to lower stock valuations.

"All About That Earnings" (using my Meghan Trainor voice)

Investors are right to be excited about this quarter's earnings. The S&P 500's first-quarter earnings are up about 27%, which is way ahead of the expected 13% growth. Even more importantly, second-quarter earnings estimates have risen.

Since February 27, the day before the Iran war began, 2026 earnings estimates have increased by almost 7%. Despite recent negative headlines, the jump in oil prices and higher gas prices, analysts have become more optimistic about the health of corporate

America. Continued higher earnings could be the catalyst for continued market growth, but it bears watching.

Stay Diversified

When markets are priced for optimism like they are now, it doesn't take bad news to trigger volatility, only less good news. A well-diversified portfolio goes a long way toward risk management.

Investors seem to be assuming that the negative impacts from the Iran war will be reversed once an agreement between the U.S. and Iran is reached. They are hoping that job creation will stay positive, inflation will level off, the economy will continue to grow, and earnings will remain strong. I hope so, too, but with stocks near all-time highs, I am starting to prepare for some short-term volatility in case these things don't happen soon.

Thankfully, our son had enough money to buy a rebuilt motor, though his finances took a hit. He serves at a steakhouse in town, picking up extra shifts and praying for good tippers this summer, all because of a quick overheating. I don't think the market will do anything like that, but I will be watching closely just in case. A good temperature gauge is always handy.

Have a blessed week.

IN THE MATTER OF THE BATLINER ESTATE

IN THE DISTRICT COURT OF WYANDOTTE COUNTY, KANSAS PROBATE DIVISION

In the Matter of the Estate of Ruthann Batliner, Deceased.

Case No.: WY-2026-PR-000178 K.S.A. Chapter 59

NOTICE OF HEARING AND NOTICE TO CREDITORS

THE STATE OF KANSAS TO ALL PERSONS CONCERNED:

You are hereby notified that on the 19th day of May 2026, a Petition has been filed in this Court by Gary Batliner, petitioner, praying the Will filed with the Petition be admitted to probate and record; petitioner be appointed as Executor, without bond; and be granted Letters Testamentary.

You are hereby required to file your written defenses to the admission of the decedent's will to probate on or before June 18, 2026, at 9:00 a.m., in this Court, in the District Court of Wyandotte County, Kansas, at which time and place the cause will be heard. Should you fail therein, judgment and decree will be entered in due course upon the petition.

All creditors are notified to exhibit their demands against the Estate within the latter of four months from the date of first publication of notice under K.S.A. 59-2236 and amendments thereto, or if the identity of the creditor is known or reasonably ascertainable, 30 days after actual notice was given as provided by law, and if their demands are not thus exhibited, they shall be forever barred.

LEGAL NOTICE

**ORDINANCE NO. O-55-26
SP2025-094**

AN ORDINANCE authorizing a Special Use Permit pursuant to Chapter 27 of the 2008 Code of Ordinances and Resolutions of the Unified Government of Wyandotte County/Kansas City, Kansas.

BE IT ORDAINED BY THE UNIFIED GOVERNMENT COMMISSION OF WYANDOTTE/COUNTY/KANSAS CITY, KANSAS:

Section 1. Special Use Permit Granted. Pursuant to the regulations set forth in Chapter 27, Sec. 27-214 of the 2008 Code of Ordinances and Resolutions of the Unified Government of Wyandotte County/Kansas City, Kansas, permission is hereby granted to use in the manner set forth in Section 2 hereof, the following described real property as set forth in SP2025-094, commonly known as 8900 Metropolitan Avenue, Kansas City, Kansas, legally described as:

Beginning at a found 1/2" square iron bar at the southwest corner of said Lot 13, thence north 02 degrees 26 minutes 10 seconds west along the west line of said Lot 13, a distance of 1284.75 feet to a 1/2" iron bar with cap stamped DFE KS 1575 at the northwest corner of said Lot 13; Thence North 87 degrees 58 minutes 43 seconds east along the north line of said Lot 13, a distance of 1254.61 feet to a set 1/2" iron bar with cap stamped WPS CLS 172, thence departing the north line of said Lot 13, South 02 degrees 29 minutes 56 seconds east, a distance of 1283.16 feet to a set 1/2" iron bar with cap stamped WPS CLS 172 on the south line of said Lot 13; Thence south 87 degrees 54 minutes 20 seconds west along said south line, a distance of 1256.00 feet to the point of beginning, located at approximately 8900 Metropolitan Avenue, Kansas City, Kansas.

Section 2. That the real property hereinabove described shall hereafter be granted a Special Use Permit for a battery storage facility.

Section 3. Conditions and Stipulations. The Special Use Permit granted in Section 1 and 2 hereinabove, in addition to full compliance with any general provisions contained in Chapter 27 of the 2008 Code of Ordinances and Resolutions of the Unified Government of Wyandotte County/Kansas City, Kansas, is hereby contingent upon the performance and observation of the following additional and supplementary regulations, stipulations, conditions and restrictions, of which any violation of any hereafter enumerated will be an additional basis for revocation in addition to those factors specified in Section 27-214:

1. Subject to approval of the Special Use Permit and Preliminary Development Plan, a Final Development Plan is required to be submitted to finalize landscaping and screening, site engineering and roadway improvements and approved by the City Planning Commission prior to the issuance of a building permit from the Development Review Committee (DRC);

2. Because the eastern half of the parcel has been acquired, east of Timmons Creek by the Applicant, this area shall remain as open space. A deed restriction designating this area as open space for the duration (lifecycle) of this Special Use Permit shall be recorded with the Register of Deeds;

LEGAL NOTICE

3. Section 27-700(a) In the R-1, R, A-G, R-1(B), R-2, and R-2(B) districts, one (1) shade tree per dwelling unit is required in the front or corner side yard, and one (1) tree per 7,000 square feet of site area for uses other than residences. 230 trees are required to be planted. The site is 37.00 acres, which requires 230 trees to be planted. Existing mature trees can count towards that total.

Given the proposed location of the battery storage, and what is visible from Metropolitan, no adjacent property owner should see this facility or substation from their rear yards (to the north and east) or from Metropolitan Avenue to the south or South 88th Street;

4. Create an open space easement along the blue line streamways (Intermittent stream, forested wetland and ephemeral stream depicted on sheet C100) in the southwest corner of the site;

5. The protected wetland throughout the property, preserving as an open space easement;

6. All landscaping shall be irrigated with an in-ground irrigation system;

7. The Facility shall not be operated as to emit noise at a neighboring residential structure(s) existing as of the effective date of this Special Use Permit that is of higher sound pressure level (dB(A)) than the ambient day-night average (Ldn) existing prior to commencement of Facility operations. Applicant shall submit acoustics modeling reports using prudent industry standards completed by a 3rd party with expertise in the field of acoustics to determine day-night average sound level conditions before and after Facility operations;

8. Applicant shall be permitted to install a barrier around all or a portion of the Facility for noise mitigation, visual screening and/or security (e.g., wall, screened fencing, etc.). Any barrier shall be colored an earthen tone representative of the surrounding area. If no barrier is installed, then the exterior Facility enclosures shall be colored an earthen tone representative of the surrounding area;

9. The Facility shall not be permitted or so operated within a fully enclosed building. For the purposes of satisfying this requirement, the individual Facility enclosures shall not be considered fully enclosed buildings;

10. The battery enclosures shall be integrated and UL certified offsite to ensure the highest level of quality related to assembly and installation;

11. The Facility shall not involve the storage, handling or use of heavy metals in the batteries or otherwise;

12. The Facility shall not be permitted to stack individual enclosures;

13. The Facility shall maintain ongoing compliance with National Fire Protection Association (NFPA) and International Fire Code (IFC) fire and electrical codes applicable to the Facility. To verify compliance, Applicant shall submit a code analysis report to the Unified Government of Wyandotte County on an annual basis;

14. The Facility shall be operated by the Applicant using a state-of-the-art battery management system capable of remote management of overall system health including temperature, state-of-charge and voltage;

LEGAL NOTICE

15. Prior to commencement of construction of the Facility, Applicant shall improve the following roadways: (i) South 88th Street from Kaw Drive up to Metropolitan Avenue, and (ii) Metropolitan Avenue from South 88th Street to the most western Facility entrance. Applicant shall not be responsible for any improvements beyond a rural residential cross section in accordance with the specifications of the Unified Government of Wyandotte County. Applicant shall restore any public roadways damaged solely due to Applicant or its subcontractor's negligence during its construction activities;

16. The Applicant, at its expense, shall demonstrate to the satisfaction of the Unified Government of Wyandotte County that commercially reasonable efforts have been made to extend existing internet service to all properties within 1,000 feet of the Facility Property;

17. The Applicant shall coordinate with local emergency responders including the KCK Fire Department on an emergency response guide (the "ERG"). At a minimum, the ERG will be developed per NFPA standards and guidance. The plan should include the following key elements: Roles and Responsibilities: Clearly define the roles and responsibilities of the key stakeholders including the Applicant, Facility operator, equipment supplier and local emergency response teams;

18. Establish well-defined emergency response protocols that are easily accessible, regularly reviewed, and communicated to all relevant personnel. These protocols should include (at a minimum) procedures for emergency identification and response, evaluating emergency situations, and notifying first responders;

19. Plans shall be in accordance with the NFPA and include necessary submittals to the applicable authorities having jurisdiction;

20. Ensure that personnel are properly trained and prepared for emergency situations. Applicant, at its expense, shall provide training to local emergency responders including the KCK Fire Department prior to commencement of operations and annually during operations;

21. The Applicant shall report on the potential emissions resulting from a Facility fire by providing a plume modeling and dispersion study report using prudent industry standards completed by a 3rd party with expertise in the field of plume modeling and dispersion. The modeling shall take into account the Facility design, equipment technology, meteorology, topography, nearby structures and suppression techniques;

22. Prior to construction, Applicant shall provide a Hazard Mitigation Analysis (the "HMA") by evaluating potential energy storage system failure modes and the safety-related consequences contributed to the failure modes. At a minimum, the HMA will assess the implications of the failure modes required per NFPA and IFC. The Facility design will be evaluated against these failure modes to verify the appropriate mitigation has been incorporated to address the potential safety-related consequences;

23. The Facility will be decommissioned by Applicant at its expense if it ceases operations for up to two (2) years or reaches the end of its

LEGAL NOTICE

lifespan. All project components will be removed, and the land will be restored to its pre-existing condition. Applicant shall provide financial assurance in the form of a bond or letter of credit for the benefit of the Unified Government of Wyandotte County in an amount equal to 100% of the estimated cost of decommissioning the Facility, after deducting salvage or recycling value (the "Net Removal Cost"). The Net Removal Cost shall be estimated by a third-party engineer licensed in the state of Kansas with expertise in decommissioning plans (the "Decommissioning Plan"). The first posting date of the financial assurance shall be on the fifth (5th) anniversary of the commercial operations date of the Facility, with additional posting dates occurring not less frequently than every five (5) years following the first payment. Applicant shall update the Decommissioning Plan with the initial posting and each subsequent posting thereafter;

24. The Applicant will establish a 24-hour hotline for Unified Government of Wyandotte County staff and residents to call in the event of complaints during construction. Owner and Contractor will maintain a log to track all complaints and ensure adequate responses;

25. Applicant shall establish a cost recovery account with the Unified Government of Wyandotte County for recovery of direct and reasonable inspection and review fees associated with the development, construction, commissioning and operations of the Facility not to exceed \$150,000;

26. While the Applicant indicated that no signage is proposed, per Section 27-723(a), no sign (including the structure or sign surface) shall be erected, installed, altered, relocated, rebuilt, or refaced until the Unified Government issues a sign permit. Only those signs permitted in this division shall be granted a sign permit. Contact the Department of Planning and Urban Design at (913) 573-5750 or signpermits@wycokck.org to begin this process;

27. If approved, the Applicant may need additional licenses or permits for safe and proper operation. The approval of this application does not mitigate the need for additional licenses as this application is for Zoning approval only;

28. If approved, occupying businesses must file and maintain a current business occupation tax application with the Business Licensing Division. Their office is located at the Neighborhood Resource Center, 4953 State Avenue, Kansas City, KS 66102. Their contact information is (913) 573-8780 or businesslicense@wycokck.org;

29. Any business in Wyandotte County that is required to obtain any Special Use Permit shall be responsible to ensure that all vehicle parking or vehicle storage must occur entirely on private property of the same land parcel and at all times be compliant with all applicable local ordinances [27-463 through 27-470; 27-592 through 27-616; 27-667 through 27-676; 35-468 through 35-492]. No such business shall use the public right of way for any business operation. Any shared parking with another property is only allowed by a properly executed legal document that has been filed with the Unified Government and ratified by the City Planning Commission. Failure to comply at all times with parking

LEGAL NOTICE

regulations will result in municipal summons, administrative citation, or revocation of the Special Use Permit;

30. Approval of this case by the Board of Commissioners, and the conditions of approval contained herein, has been granted independent of any and all covenants, conditions, and restrictions (CC&R) of the plat or subdivision within which the subject property is located. It is the responsibility and duty of the applicant and/or landowner to ensure that the real or constructive operation of any use allowed under this Special Use Permit, or any portion thereof, does not violate the applicable and enforceable CC&R of the plat or subdivision within which the subject property is located;

31. The Special Use Permit is not valid for the approved use to be in operation until all the conditions of approval are met. The Applicant acknowledges that both the property owner and the business owner are collectively responsible to ensure that the use of the property is compliant with all ordinances, conditions, and other requirements of this approval. Failure to meet all these requirements may result in revocation of this permit. The property may also be subject to enforcement actions and administrative citations;

32. Due to the capital and infrastructure needed to construct this facility and the length of the construction timeline, the Special Use Permit shall be valid for 10 years from the publication of the associated Ordinance, afterwards requiring three (3) renewals spaced every five (5) years subject to passing compliance checks from staff. The Applicant is solely responsible for renewing their Special Use Permit. The Applicant should contact the Planning and Urban Design Department no less than two (2) months prior to the expiration of the permit to begin the renewal process. Any application for renewal that is submitted after the expiration date will be considered a new application with the associated application fee and approval term. If the renewal deadline is not met, all operations must cease until such time as a new Special Use Permit is approved.

33. Subject to approval, a \$125.00 ordinance publication fee must be submitted to the Planning and Urban Design Department (checks made payable to the Unified Treasurer) within 30 days following the Unified Government Board of Commissioners meeting. If a check is not submitted within 30 days, the petition becomes invalid. The approval will not go into effect until the ordinance is published in the newspaper;

34. Substantive action towards the completion of all conditions of approval herein must commence within six (6) months of approval unless otherwise determined by the Director of Planning or their designee; and,

35. Conditions #7, #17, #18, #19, #21 and #24 shall be submitted with the Final Development Plan for review by the requisite departments and agencies.

Section 4. Take Effect. This ordinance shall take effect as of the date of its publication as provided by law.

PASSED BY THE COMMISSION OF THE UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS, THIS 30TH DAY OF APRIL, 2026.

Christal E. Watson

LEGAL NOTICE

Mayor/CEO

Unified Government Clerk
Approved as to Form:
Chief Counsel
(First published 5-28-26)
1t-The Wyandotte Echo-5-28-26

ORDINANCE NO. O-56-26

An ordinance relating to Chapter 8, Land Disturbance, Article XIV, amending Sections 8-611, 8-613, and 8-615; and Article XV, amending Sections 8-631, 8-636, and 8-638.

BE IT ORDAINED BY THE BOARD OF COMMISSIONERS OF THE UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS:

Section 1. That Sections 8-611, 8-613, 8-615, 8-631, 8-636, and 8-638 are hereby amended to read as follows:

Sec. 8-611. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Approved plan means drawings or other documents that have been submitted by an applicant as a prerequisite to obtaining a land disturbance permit and that contain the information and specifications required by the unified government engineer to minimize off-site sedimentation from land disturbance activities and that have been approved by the unified government as complying with the provisions of this article.

Applicant means any person who makes application for a land disturbance permit, as required by this article.

Best management practice (BMP) means the stormwater management practice used to prevent or control the discharge of pollutants, including sediment, and minimize runoff, both directly and indirectly, to stormwater, receiving waters, or stormwater drainage systems, waters of the U.S. or water body found in the unified government. BMPs may include structural or nonstructural solutions, a schedule of activities, prohibition of practices, maintenance procedures, or other management practices and programs.

City means all of the territory of Wyandotte County, except the territory of the cities of Bonner Springs, Edwardsville, and Lake Quivira and the unincorporated area of Wyandotte County.

Clearing means any act by which vegetative cover, structures or surface material is removed, including, but not limited to, root mat or topsoil removal.

County administrator means the individual appointed by the mayor/CEO of the unified government as the unified government county administrator or his designee.

County engineer means the individual appointed by the county administrator as county engineer or his or her designee.

Design criteria means the erosion and sediment control design criteria adopted in writing, as authorized by section 8-613(a)(2).

Development means any human activity that alters the elevation, cover or other hydrologic feature of the land. Such activities include but are not limited to the subdivision of land and the addition or alteration of improvements such as cuts and

LEGAL NOTICE

fills, drainage alterations, utilities, buildings, pavements, landscape, and any combination of these elements. Also, the project, lot, parcel or tract or land where development or redevelopment occurs.

Director of urban planning and land use means the individual appointed by the county administrator as unified government director of urban planning and land use or his or her designee.

Erosion means the process by which the ground surface is worn away by the action of the wind, water, ice, gravity, or artificial means, and/or land disturbance activities.

Grading means any act by which soil is cleared, stripped, moved, leveled, stockpiled, or any combination thereof, and includes the conditions that result from that act.

Land disturbance activity means any act by which soil is moved and land changed that may result in erosion or the movement of sediments, and may include tilling, clearing, grading, excavating, stripping, stockpiling, filling and related activities, and the covering of land surfaces with an impermeable material.

Licensed land surveyor means an individual who is duly licensed by the state board of technical professions, pursuant to K.S.A. 74-7001 et seq., to practice surveying.

Maximum extent practicable means the result of the use of those best management which, based on sound engineering and hydro-geological principles, will, to the greatest degree possible, given all relevant considerations, including technology, climate and site conditions, prohibit erosion and sedimentation during and after development.

Municipal separate storm sewer system (MS4) or public storm sewers means the publicly maintained stormwater drainage system within the unified government, including all appurtenances and ancillary structures thereto, any conveyance or system of conveyances for stormwater, including road drainage systems, streets, catch basins, detention basins, curbs, gutters, ditches, man-made, channels, or storm drains, as well as any system that meets the definition of a municipal separate storm sewer system or "MS4" as defined by the Environmental Protection Agency in 40 C.F.R. 122.26, or amendments thereto.

Notice of violation means a written notice from the county engineer of deficiencies in the sediment and erosion control management of the site.

Permit means the land disturbance permit issued by the unified government authorizing land disturbance activities in accordance with the requirements of this article.

Permittee means any person to whom a land disturbance permit is issued pursuant to this article.

Permittee's agent means any representative, contractor, foreman, or superintendent who acts at the instruction of, or with the permission of, or to the benefit of the permittee.

Person means any natural or corporate person, business association or business entity including, but not limited to, a corporation, a partnership, a sole proprietorship, a political subdivision, a public or private agency of any kind, a utility, a successor or assign of any of the foregoing, or any combination thereof.

Pollutant means any substance or material which contaminates or adversely alters the physical, chem-

LEGAL NOTICE

ical or biological properties of water, including changes in temperature, taste, odor, turbidity, or color.

Professional engineer means an engineer duly licensed by the state board of technical professions, pursuant to K.S.A. 74-7001 et seq., to practice engineering.

Property owner means the person listed as owner of the property by the county recorder of deeds.

Qualified erosion control professional means a person who meets the criteria set forth by the most recent version of the Unified Government of Wyandotte County Technical Provisions Section 1100 General Requirements.

Sediment means soils or other materials transported or deposited by the action of wind, water, ice, gravity, or artificial means.

Site means any lot or parcel of land or a series of lots or parcels of land adjoining or contiguous or joined together under one ownership on which land disturbance activity is proposed in an application or which would require a land disturbance permit under this article.

Slope means the inclined surface of a fill, excavation, or natural terrain.

Soil means a natural mixture of mineral and organic particles bound to one another only by gravity or ionic bonds that is found on the immediate surface of the earth.

Stop work order means an order issued which requires that all construction activity on a site be stopped.

Storm drain means any enclosed structure for the conveyance of storm water runoff, including culverts, box culverts, storm sewer mains, or tunnels.

Stormwater pollution prevention plan (SWPPP) means BMPs and other structural, procedural and operations and maintenance provisions designed and operated to reduce or eliminate the discharge of pollutants, particularly in stormwater runoff.

Stripping means any activity by which the vegetative cover is removed or significantly disturbed, including tree removal, clearing, grubbing and storage, or removal of topsoil.

Unaffiliated - means the person(s) performing inspection work on behalf of the facility and/or property owner may not be directly employed by the facility or property owner.

Unified government means the unified government of Wyandotte County/Kansas City, Kansas.

Vegetative cover means any grasses, shrubs, trees and other vegetation that hold and stabilize soils.

Watercourse means any natural or artificial path for the concentrated flow of storm water or surface water, including but not limited to streams, rivers, creeks, ditches, channels, canals, conduits, culverts, drains, swales, waterways, gullies, ravines, or washes, including any area adjacent to it that is subject to overflow of floodwater.

(Ord. No. O-81-21, § 1, 6-24-2021)

Sec. 8-613. Land disturbance permit.

(a) Permit required. No person may engage in any land disturbance activity, including persons engaged in land disturbance activity related to utility installation or maintenance, without first obtaining a land disturbance permit from the unified government, except as provided in this article. Any land disturbance permit

LEGAL NOTICE

shall encompass all land disturbance activity at the locations and during the times covered by the permit, whether such land disturbance activity is performed by the permittee, his or her contractor or subcontractors, a utility or its contractors, or any other independent agent. The permit fee shall be doubled for sites where land disturbance has occurred without a permit in violation of this article. Refer to the most recent version of the Kansas Water Pollution Control General Permit under "authorization to discharge" for who must obtain authorization to discharge.

(b) Permit issuance. The issuance of a permit shall constitute an authorization to do only that work described in the permit or shown on the approved plan. All work shall be completed in strict compliance with the requirements of this article. A copy of the approved plan and the permit must be available on the site for inspection by the county engineer. Field markings showing limits of disturbance must be on site during all installation of erosion and sediment control measures, construction, or other land disturbance activities.

(c) Other construction permits delayed. When a person is developing a site and a permit is required in accordance with this article, no other construction permits shall be issued to make improvements on that site until the person has secured a land disturbance permit for the same site.

(d) Exemptions. Refer to the most recent version of the Kansas Water Pollution Control General Permit under "authorization to discharge" for activities that do not require permit coverage.

(e) Application.

(1) To obtain a permit, the property owner of the site where the land disturbance activity is to be performed or the property owner's authorized representative first must submit a complete application in writing upon forms prescribed by the unified government.

(2) Each application shall bear the name(s) and address(es) of the property owner and developer of the site, and of any consulting firm retained by the applicant together with the name of the applicant's principal contact and shall be accompanied by a filing fee. A land disturbance permit will only be issued in the name of the current property owner.

(3) A qualified erosion control professional shall be identified on every permit as a responsible party who the unified government official may contact regarding installation, maintenance, notice of violations and removal of erosion and sediment control measures and to ensure that all work is completed in compliance with the SWPPP and all requirements of the land disturbance permit approved by the unified government. The permit holder is responsible for timely written notification to the unified government of any changes to the qualified erosion control professional.

(4) The property owner may designate, in writing, others to act on his or her behalf, however, the responsibility for compliance shall remain with the property owner until the issued permit has been officially closed.

(5) The land disturbance activity described in the land disturbance permit application shall be commenced within the time limits defined on the application.

LEGAL NOTICE

(6) Application shall include a statement that any land clearing, construction, or development involving the movement of earth shall be in accordance with the erosion and sediment control plan and that a certified contractor shall be on site on all days when construction or grading activities take place.

(f) Review and approval. The county engineer will review each application to determine its conformance with the provisions of this article and the erosion and sediment control design criteria authorized hereby. The county engineer shall, in writing:

(1) Approve the permit application if the application complies with all the requirements of this article and the county engineer determines that best management practices will be employed to control erosion and sedimentation to the maximum extent practicable;

(2) Approve the permit application subject to conditions, as herein authorized, as may be reasonably necessary to secure the objectives of this article or prevent the creation of a nuisance or an unreasonable hazard to persons or to public or private property, and issue the permit subject to these conditions; or

(3) Disapprove the permit application, indicating, in writing, the reason therefor.

(g) Conditions of approval. In approving the issuance of any permit, the county engineer may impose conditions as may be reasonably necessary to secure the objectives of this article or prevent the creation of a nuisance or unreasonable hazard to persons or to public or private property. These conditions may include, but are not limited to:

(1) The granting (or securing from others) and the recording in county land records of easements for drainage facilities, including the acceptance of their discharge on the property of others, and for the maintenance of slopes or erosion control facilities;

(2) Adequate control of dust by watering, or other control methods acceptable to the county engineer;

(3) Improvements of any existing grading, ground surface or drainage condition on the site (not to exceed the area as proposed for work or development in the application) to meet the standards required under this article for land disturbance, drainage and erosion control;

(4) Installation of additional safety related devices when in the proximity of an elementary school, playground or other areas where small children may congregate without adult supervision;

(5) Stormwater pollution prevention plan and any other conditions believed necessary to protect the general public's health, safety, and welfare; and

(6) Liability insurance if, in the opinion of the county engineer, the nature of the work is such that it may create a hazard to human life or endanger adjoining property or property at a higher or lower elevation, or any street or street improvement, or any other private or public property, then the county engineer may, before issuing the permit, require the applicant to file a certificate of liability insurance. That certificate must be with an insurer admitted to do business in the state. The amount shall not be less than \$1,000,000.00 per occurrence and \$2,000,000.00

LEGAL NOTICE

in aggregate. The insurance shall protect the permittee and the unified government from and against all claims by any person whatsoever for loss or damage from personal injury, bodily injury, death, or property damage to the extent caused or alleged to have been caused by the negligent acts or omissions of permittee, its employees, agents, or subcontractors. The values noted above may be adjusted at the discretion of the county engineer based on the exposure and risk involved in the project. Neither issuance of a permit, nor compliance with these provisions or any condition imposed by unified government relieves any person from any responsibility for damage to persons or property otherwise imposed by law, nor imposes any liability upon the unified government for damages to persons or property.

(h) Assignment or transfer.

(1) The permittee may request that the permit be transferred to another party. The transfer of a permit from one party to another shall be subject to the approval of the county engineer and not be effective until written approval is issued.

(2) If the permittee sells any portion of the property before the termination of the permit, the permittee will remain responsible for that portion of the property until the new property owner obtains a permit or until a completion certificate is issued for the portion sold.

(3) A new owner of a portion of property covered by an approved plan with respect to which a completion certificate has not been issued, shall, before a building permit is issued, obtain a permit, if, and as, required by this article.

(i) Termination upon completion. To terminate the permit, the permittee shall submit a request to terminate permit form, as provided by the unified government, to the county engineer. The county engineer will then inspect the site and make a determination as to whether the permit can be terminated. The site will be considered stabilized when perennial vegetation, pavement, buildings, or structures using permanent materials cover all areas that have been disturbed. The permittee will be notified in writing of the determination. A certificate of occupancy (CO) or temporary certificate of occupancy (TCO) for a building permit may not be released until the land disturbance permit is approved for termination as a result of a successful final inspection.

(Ord. No. O-81-21 , § 1, 6-24-2021)

Sec. 8-615. Inspections.

The county engineer may perform inspections of the land disturbance site to verify compliance with the erosion and sediment control plan. Should it be found that erosion and control methods are ineffective or are not being maintained properly, the county engineer may take enforcement actions described within this chapter. The county engineer has the right to waive inspections, except the final inspection.

In addition to its own inspections, the county engineer may require that any portion of the construction of basins or structures be inspected and certified for structural integrity by a professional engineer at the permittee's expense. At the county engineer's option, the permittee shall obtain the services of an unaffiliated qualified erosion control professional

LEGAL NOTICE

to inspect the sediment and erosion control installation to provide the unified government with a fully documented certification that all construction is done in accordance with the provisions of the approved plan, applicable rules, regulations and criteria.

(a) Secure inspections. The permit holder shall request an inspection from the county engineer when work pursuant to the permit reaches the milestones set forth below. Requests for inspection shall be made at least 48 hours in advance (exclusive of Saturdays, Sundays, and unified government holidays) of the time the inspection is desired. Work shall not proceed past the milestones without request of inspection.

(1) Upon installation of initial erosion and sediment controls, and prior to proceeding with any other land disturbance activity. No land disturbance activities shall begin prior to approval from the county engineer that all pre-construction erosion and sediment control measures are correctly installed per the approved plan.

(2) Prior to the removal or modification of any erosion and sediment control measure or practice;

(3) Immediately after the installation or modification of any erosion and sediment control measures required by the approved plan; and

(4) Upon restoration of disturbed areas, including establishment of ground covers and planting, installation of all vegetative measures, and all other work in accordance with the approved plan.

(b) Routine inspection. The permit holder shall ensure the entire construction site including but not limited to disturbed areas, BMPs, waste and construction storage areas, drainage areas, locations where stormwater can flow from the construction site, and permanent and temporarily stabilized areas is inspected on a regular schedule and, with the exception of Saturdays, Sundays, established federal holidays and the day after thanksgiving. The permit holder may elect to perform regular inspections at a minimum by one of two methods:

(1) At least once every 14-days and by the end of the next day following a rain event which results in a rainfall total of 0.5 inches or greater; or

(2) As defined in the latest revision of Kansas Construction Stormwater General Permit.

The frequency of regular inspections should be proportional to the amount of construction activity. The permit holder should increase the frequency of inspections when construction activity increases. For disturbed areas that have not been finally stabilized all installed BMPs and other pollution control measures shall be inspected for proper installation, operation and maintenance. Locations where stormwater runoff leaves the site shall be inspected for evidence of erosion or sediment deposition. Any deficiencies shall be noted in a report of the inspection and corrected within seven calendar days of the inspection. Inspection reports shall be submitted to the county engineer upon request. The inspection report shall include the following minimum information:

- (1) Inspector's name;
- (2) Date of inspection;
- (3) Observations relative to the effectiveness of the BMPs;
- (4) Actions taken or necessary to

LEGAL NOTICE

correct deficiencies;

(5) Listing of areas where construction operations have permanently or temporarily stopped; and

(6) Observations of stormwater discharge locations with respect to the effectiveness of the upgradient BMPs.

The inspection report shall be completed within 24 hours of the inspection and be signed by the person performing the inspection.

(c) Maintenance of control measures. All prescribed erosion and sediment control measures shall be maintained in good order and in compliance with the erosion and sediment control plan at all times. The permittee or the permittee's agent shall inspect and maintain, in good and effective condition, and promptly repair or restore all grade surfaces, diversions, barriers, drains, dams, walls and structures, plantings, vegetation, ground cover, erosion and sediment control measures, and other protective devices. Inspection, maintenance and repair or restoration shall be at the times and in the manner directed by the approved plan, permit and the design criteria, construction standards and regulations.

(d) Closure of land disturbance activities. Once the site is stabilized a final inspection shall be requested. The site shall be considered stabilized when perennial vegetation, pavement, buildings or structures using permanent materials, cover all areas that have been disturbed. Perennial vegetation shall be considered established and completed for stabilization when it has established a healthy and growing stand with a density of at least 70 percent of undisturbed areas at the site.

(e) Removal of temporary erosion and sediment control measures. Subsequent to a satisfactory final inspection of the land disturbance, all temporary erosion and sediment control measures must be removed and the final segments of the storm sewer system shall be constructed in the manner described within the approved plans. Such removal shall be complete prior to closure of the permit which authorized the land disturbance.

(Ord. No. O-81-21 , § 1, 6-24-2021)

Sec. 8-631. Definitions.

In this article, these words and phrases have the following meanings:

As-built plan means a record drawing or plan prepared and certified by a professional engineer that represents the actual dimensions, contours, elevations, design calculations, etc., of a completed structure, facility, or constructed feature.

Best management practice (BMP) means the stormwater management practice used to prevent or control the discharge of pollutants, including sediment, and minimize runoff, both directly and indirectly, to stormwater, receiving waters, or stormwater drainage systems, waters of the U.S. or water body found in the unified government. BMPs may include structural or nonstructural solutions, a schedule of activities, prohibition of practices, maintenance procedures, or other management practices and programs.

Channel means a natural or artificial watercourse with defined bed and banks that conducts continuously or periodically flowing water.

City means all of the territory of

LEGAL NOTICE

Wyandotte County, except the territory of the cities of Bonner Springs, Edwardsville, and Lake Quivira and the unincorporated area of Wyandotte County.

County administrator means the individual appointed by the mayor/CEO of the unified government with the consent of the commission as the unified government county administrator or his/her designee.

County engineer means the individual appointed by the county administrator as the unified government county engineer or his/her designee.

Dedicate means the deliberate appropriation of property by its owner for general public use.

Developer means any person who owns a development or redevelopment site, or who authorizes, plans, undertakes, executes, or is otherwise directly responsible for development or redevelopment to occur on a given parcel.

Development or redevelopment means any human activity that alters the elevation, cover or other hydrologic feature of the land. Such activities include but are not limited to the subdivision of land and the addition or alteration of improvements such as cuts and fills, drainage alterations, utilities, buildings, pavements, landscape, and any combination of these elements. Also, the project, lot, parcel or tract or land where development or redevelopment occurs.

Development site means any lot or parcel of land or a series of lots or parcels of land adjoining or contiguous or joined together under one ownership on which development or redevelopment of land occurs after the effective date of this article.

Drainage easement means a legal right granted by a property owner to a grantee allowing the use of private land for stormwater management purposes.

Erosion means the process by which the ground surface is worn away by the action of the wind, water, ice, gravity, or artificial means, and/or land disturbance activities.

Impervious cover means those surfaces that cannot effectively infiltrate rainfall, including building rooftops, pavement, sidewalks, and driveways.

Land disturbance means any activity by which soil is moved and land changed that may result in erosion or the movement of sediments, and may include tilling, clearing, grading, excavating, stripping, stockpiling, filling and related activities, and the covering of land surfaces with an impermeable material.

Landscape architect means an individual who is duly licensed by the Kansas State Board of Technical Professions, pursuant to K.S.A. 74-7001 et seq. to practice landscape architecture.

Maintenance agreement means a legally recorded document that acts as a property deed restriction, and which provides for long-term maintenance of stormwater treatment facilities.

Municipal separate storm sewer system (MS4) or public storm sewers means the publicly maintained stormwater drainage system within the unified government, including all appurtenances and ancillary structures thereto, any conveyance or system of conveyances for stormwater, including road drainage systems, catch basins, detention

LEGAL NOTICE

basins, curbs, gutters, ditches, man-made, channels, or storm drains, as well as any system that meets the definition of a municipal separate storm sewer system or "MS4" as defined by the Environmental Protection Agency in 40 C.F.R. 122.26, or amendments thereto.

Person means any natural or corporate person, business association or business entity including, but not limited to, a corporation, a partnership, a sole proprietorship, trust, a political subdivision, a public or private agency of any kind, a utility, an owners association, a successor or assign of any of the foregoing, or any combination thereof.

Pollutant means any substance or material which contaminates or adversely alters the physical, chemical or biological properties of water, including changes in temperature, taste, odor, turbidity, or color.

Pollution prevention plan means BMPs and other structural, procedural and operations and maintenance provisions designed and operated to reduce or eliminate the discharge of pollutants, particularly in stormwater runoff.

Previously constructed development means all buildings, parking, sidewalks, and other impervious surfaces that currently exist on a site that were built in accordance with an approved development plan.

Professional engineer means an engineer duly licensed by the Kansas State Board of Technical Professions, pursuant to K.S.A. 74-7001 et seq. to practice engineering.

Property owner means the person listed as owner of the property by the county Wyandotte County Register of Deeds.

Stop work order means an order issued which requires that all construction activity on a site be stopped.

Stormwater means surface flow resulting from any form of natural precipitation, also any discharge to the public storm sewer allowed under the unified government's NPDES stormwater discharge permit.

Stormwater treatment facility (STF) means any constructed facility, or designated natural or restored open space, designed either to reduce the pollution load of stormwater, or to reduce the peak flow or volume of stormwater, or both.

Stormwater treatment facility owner means the person who controls, possesses, or takes stewardship of a stormwater treatment facility, which is planned and constructed in order to meet the requirements of this section.

Stormwater treatment standards or standards means the detailed design criteria, construction specifications, standard details, and maintenance requirements adopted in writing by the county engineer.

Unaffiliated - means the person(s) performing inspection work on behalf of the facility and/or property owner may not be directly employed by the facility or property owner.

Unified government means the unified government of Wyandotte County/Kansas City, Kansas.

Watercourse means any natural or artificial path for the concentrated flow of storm water or surface water, including but not limited to streams, rivers, creeks, ditches, channels, canals, conduits, culverts, drains, swales, waterways, gullies, ravines, or washes, including any area adjacent to it that is subject to overflow

LEGAL NOTICE

of floodwater.

(Ord. No. O-81-21, § 2, 6-24-2021)
Sec. 8-636. Construction inspections.

(a) Inspections. Regular inspections of the stormwater management system construction shall be the responsibility of the project designer (certifying professional engineer) or other owner's representative who has been approved by the county engineer. Inspection results of said inspections shall be forwarded to the county engineer. The property owner/developer shall notify the county engineer before beginning construction of any stormwater treatment facility and shall keep the county engineer advised as to the progress of the work and any changes in the schedule. For certain types and locations of stormwater treatment facilities, the county engineer may at their discretion require additional or parallel inspections by unified government staff. A final inspection will be required by the unified government before a certificate of occupancy and/or temporary certificate of occupancy can be released.

(b) The unified government may also require the property owner/developer to retain a third party inspector, if at the county engineer's discretion, the complexity of the stormwater treatment facility, inexperience by the property owner's contractor, or harsh site conditions warrant the need for full-time third party inspection staff.

(c) In addition to inspections established under previously adopted or subsequently amended unified government regulation of buildings and development, the county engineer may during the construction period inspect any stormwater treatment facility required under this article to ensure that it is correctly installed and adequately protected from construction phase sedimentation.

(Ord. No. O-81-21, § 2, 6-24-2021)
Sec. 8-638. Protection, maintenance and repair of facilities.

(a) Protection of stormwater treatment facilities. No person shall remove, destroy, or otherwise impair the effectiveness of any stormwater treatment facility either installed in compliance with this chapter or installed voluntarily not as part of a development or redevelopment activity.

(b) Maintenance responsibility. The property owner on whose land the stormwater treatment facility has been constructed pursuant to this chapter and any other person or agent in control of such land, shall maintain the stormwater treatment facility in good condition and promptly repair and restore all grade surfaces, walls, drains, dams and structures, vegetation, erosion and sediment control measures, and other protective devices. Such repairs or restoration and maintenance shall be in accordance with relevant agreements, plans and reports accepted by the county engineer and any amendments thereto.

(c) Required maintenance agreement. Prior to issuance of any permit that includes construction of a stormwater treatment facility, the applicant or property owner of the site shall provide a maintenance agreement for approval by the county engineer. At a minimum, the maintenance agreement shall:

(1) Identify the responsible party

LEGAL NOTICE

(with contact information) for those individuals responsible for maintaining all stormwater treatment facilities;

(2) Include an attachment showing the locations and dimensions of all stormwater treatment facilities;

(3) Provide access for the responsible party to maintain all stormwater treatment facilities, as well as right of access to the unified government as provided in other sections of this chapter;

(4) Establish minimum frequency and levels of maintenance to be completed;

(5) Establish the frequency of inspections;

(6) Identify the unified government's rights in the event that the responsible party fails or is unable to perform the obligations of the maintenance agreement;

(7) Clarify how modifications or additions can be made to the maintenance agreement; and

(8) The maintenance agreement shall be recorded in the Wyandotte County Register of Deeds and associated with all lots with stormwater treatment facility maintenance responsibilities.

(d) Notice on plat or title. The final plat shall contain language approved by the county engineer to provide notice of facility presence and maintenance obligations. Said deed restriction shall be recorded with the unified government records and tax administration concurrent or prior to recording of the final plat or approval of final plans. The notice shall run with the land and failure to provide this notice to any purchaser prior to transferring any interest in the property shall be in violation of this chapter. The notice shall be in a form approved by the county engineer and substantially as set forth below:

(1) "Notice: This site includes Stormwater Treatment Facilities, as defined and regulated in the Unified Government Code. Restrictions on the use or alteration of the said Facilities may apply. This property is also subject to the obligations and requirements of the Stormwater Treatment Facility Maintenance Agreement approved by the County Engineer or his/her designee."

(2) When the development involves a final plat, this notice shall appear on the face of the plat, as recorded. When the proposals do not involve a final plat, a drainage easement shall be granted by separate instrument and be recorded at the Wyandotte County Register of Deeds, and shall include the legal description of the property, the current owner, and other reference to the project, and the notarized signature of the property owner or owners.

(e) Dedicated tracts or easements. All stormwater treatment facilities shall be located in a separate tract dedicated for this purpose; provided however, if the stormwater treatment facility serves lands from only one lot and is located on the lot served, then the stormwater treatment facility may be located within a drainage easement dedicated for this purpose. In all cases, the tract or drainage easement shall adjoin a public right-of-way or shall include provisions for access from a public right-of-way to the stormwater treatment facility for the benefit of the property owner, legally responsible for the facility and maintenance of facility, and the county engineer for

LEGAL NOTICE

periodic inspection of the stormwater treatment facility. The use of and the restrictions placed on all such tracts and drainage easements shall be binding on subsequent property owners on which the stormwater treatment facility is located. Whenever possible, a dedicated tract or drainage easement shall be made part of a final plat recorded at the Wyandotte County Register of Deeds. However, whenever it is not possible or practical as determined by the county engineer, a drainage easement shall be recorded by separate instrument by the property owner at the Wyandotte County Register of Deeds and recorded copy provided to the county engineer.

(f) Maintenance inspections and certifications by property owner. The property owners of all stormwater treatment facilities, except for distributed facilities serving individual residential lots, must submit a maintenance certification report to the county engineer on or before the first day of November of each year. The maintenance certification report shall be completed and sealed by a registered professional engineer, landscape architect in the State of Kansas or Certified Stormwater manager, unless the county engineer approves other qualified professionals to perform these duties. The person performing the inspection and certifying the stormwater treatment facilities must be an unaffiliated third party engaged in performing these duties and not a direct employee of the owner or the lessee of the property. Such maintenance certification report shall document each item including, but not limited to, the need for removal of silt, litter and other debris, grass cutting, removal of undesirable vegetation, and replacement of landscape vegetation or other specific items noted in the maintenance agreement. Any maintenance needs found must be documented and addressed in a timely manner, as determined by the county engineer, and the inspection and maintenance frequency required may be increased as deemed necessary to ensure proper functioning of the stormwater treatment facility.

(g) Inspection of stormwater treatment facilities by the unified government. The county engineer may establish an inspection program, including but not limited to routine inspections, random inspections, inspections based upon complaints or other notice of possible violations, inspection of drainage basins or areas identified as higher than typical sources of sediment or other contaminants or pollutants, inspections of businesses or industries of a type associated with higher than usual discharges of contaminants or pollutants or with discharges of a type which are more likely than the typical discharge to cause violations of state or federal water or sediment quality standards or the NPDES stormwater permit, and joint inspections with other agencies inspecting under environmental or safety laws. Inspections may include, but are not limited to, reviewing maintenance and repair records, sampling discharges, surface water, groundwater, and material or water in drainage control facilities, and evaluating the condition of drainage control facilities and other stormwater treatment practices.

(h) Right of entry for inspection. When any stormwater treatment

LEGAL NOTICE

facility is installed on private property, or when any new connection is made between private property and a public storm sewer system, the property owner shall grant to the unified government in a manner and form acceptable to the county engineer, the right to enter the property at reasonable times and in a reasonable manner for the purpose of inspection. This includes the right to enter a property when it has a reasonable basis to believe that a violation of this article is occurring or has occurred, and to enter when necessary for abatement of a public nuisance or correction of a violation of this article.

(i) Records of installation and maintenance activities. Parties responsible for the operation and maintenance of a stormwater management facility shall make records of the installation and of all maintenance and repairs and shall retain the records for at least five years. These records shall be made available to the county engineer during inspection of the facility and at other reasonable times upon request and at a minimum shall be submitted with the annual certification package.

(j) Failure to maintain practices. If a responsible party fails or refuses to meet the requirements of the maintenance agreement, the county engineer, after reasonable notice, may correct a violation of the stormwater treatment standards or maintenance needs by performing all necessary work to place the facility in proper working condition.

(k) Public safety threat. In the event that the stormwater management facility becomes a danger to public safety or public health, the county engineer shall notify the party responsible for maintenance of the stormwater management facility in writing. Upon receipt of that notice, the responsible person shall have 30 days to effect maintenance and repair of the facility in an approved manner. In the event of an emergency, when the county engineer determines that the facility poses an immediate danger to life or property, no notification period shall be required prior to beginning mitigation work. After proper notice, the county engineer will enforce the maintenance provisions of this chapter with any or all of the following enforcement measures:

(1) Notice of violation. The county engineer is authorized to serve a notice of violation or order on any person or entity responsible for maintaining the facility. Such notice shall order abatement of the violation by the responsible person or entity.

(2) Lien on property. The county engineer may assess the property owner(s) of the facility for the cost of repair work and any penalties as authorized by law; and the cost of the work shall be a lien on the property, or assessed against the property owners defined on the plat or other registered document, and may be placed on the tax bill and collected as ordinary taxes by the unified government.

(Ord. No. O-81-21, § 2, 6-24-2021)
Section 2. This ordinance shall take effect and be in full force from and after the passage, approval, and publication in the official Unified Government newspaper.

1t-The Wyandotte Echo-5-28-26

ORDINANCE NO. O-57-26

An ordinance amending Chapter 19, article VII – Alarm Businesses and Systems of the Code of Ordinances for the Unified Government of Wyandotte County / Kansas City, Kansas.

WHEREAS, the Unified Government Code of Ordinances currently provides for the registration of alarm systems and fines for excessive false alarms;

WHEREAS, the Kansas City, Kansas Police Department and Kansas City, Kansas Fire Department have found that the current number of false alarms places a significant burden on their time and resources;

WHEREAS, certain sections of Chapter 10, article VII – Alarm Businesses and Systems of the Code of Ordinances for the Unified Government of Wyandotte County / Kansas City, Kansas no longer reflect current alarm usage and technologies;

WHEREAS, the reduction of false alarms and clearly defined alarm user responsibilities benefit residents as well as the Unified Government;

NOW THEREFORE,

BE IT ORDAINED BY THE BOARD OF COMMISSIONERS OF THE UNIFIED GOVERNMENT OF WYANDOTTE COUNTY / KANSAS CITY, KANSAS:

Section 1. That Chapter 19 – Licenses, Permits and Miscellaneous Business Regulations, article VII – Alarm Businesses and Systems, of the Code of Ordinance for the Unified Government of Wyandotte County / Kansas City, Kansas, is amended to read as follows:

Sec. 19-182. Purpose.

The purpose of this article is to encourage alarm users and alarm businesses to maintain the mechanical reliability of and to properly use alarm systems, to prevent unnecessary police and fire emergency response to false alarms, and to protect the emergency response capability of the city from misuse.

(Code 1988, § 19-461; Ord. No. 65971, § 1, 12-22-1994)

Sec. 19-183. Definitions.

The following words, terms, and phrases, when used in this article, have the following meanings, except where the context clearly indicates a different meaning.

Alarm business means the business of selling, leasing, maintaining, servicing, repairing, altering, replacing, moving, monitoring, or installing any alarm system or causing to be sold, leased, maintained, serviced, repaired, altered, replaced, moved or installed any alarm system.

Alarm coordinator means the individual or contractor designated by the police chief and/or fire chief to administer the provisions of this article.

Alarm dispatch request means a notification to the police communications center or to the fire department that an alarm, either manual or automatic, has been activated at a particular location.

Alarm signal means a detectable

LEGAL NOTICE

signal, audible, visual or both, generated by an alarm system indicating an illegal entry or other activity to which police or fire personnel are expected to respond to on an emergency basis. It does not include a local alarm system.

Alarm system means any assembly of equipment, mechanical or electrical, arranged to signal the occurrence of an illegal entry or other activity requiring the urgent attention and to which police or fire personnel are expected to respond.

Alarm user means any person who owns, controls, or occupies premises where an operating alarm system is located.

Answering service means a telephone answering business providing among its services the service of receiving on a continuous basis, through trained employees, emergency signals from alarm systems and thereafter immediately relaying the message by live voice to the police communication center or the fire department.

Central station means a location where operators are in attendance at all times to monitor alarm systems, record alarm signals, and to submit alarm dispatch request to the police communications center or to the fire department.

Central station protective system means a system or group of systems in which the operations of alarm systems are transmitted to, recorded in, maintained and supervised from a central station having operators in attendance at all times.

False alarm means an alarm signal eliciting an urgent response by police or fire personnel when a situation requiring an urgent response does not in fact exist.

- (1) A false alarm includes:
 - a. Negligently or accidentally activated signals;
 - b. Signals that are the result of mechanical or electronic failure, malfunction, improper installation, improper adjustment, or improper maintenance; and
 - c. Signals that are purposely activated in a nonemergency situation, except for testing.

(2) False alarm does not include signals activated by:

- b. Vandalism causing physical damage to the premises;
- d. Attempted entry of a location causing visible, physical or other evidence of damage to the location;
- e. The test of an alarm system by a licensed alarm business agent who is servicing, repairing or installing the alarm and who has properly notified the alarm coordinator that the testing will occur, when such testing does not result in the alarm being activated for an uninterrupted period exceeding 60 seconds; or
- f. Other extraordinary circumstances not reasonably subject to control by the alarm business or alarm user.

Fire chief means the chief of the fire department of the city or his designated representative.

Fire department means the city fire department.

Local alarm system means an alarm system that causes an audible or visual signaling device to be activated only on the premises where the system is installed or on a motor vehicle and which is intended to be heard or seen by others outside of the protected premises or vehicle.

Notice means written notice given by United States mail, postage

LEGAL NOTICE

prepaid.

Police chief means the chief of police of the city or his designated representative.

Police communication center means the city police department communication center.

Police department means the city police department.

(Code 1988, § 19-462; Ord. No. 65971, § 2, 12-22-1994; Ord. No. 66176, § 1, 12-5-1996)

Cross reference(s)—Definitions generally, § 1-2.

Sec. 19-184. Applicability; exceptions.

(a) Applicability. This article applies to all alarm businesses, alarm users, and alarm systems operating within the city, including governmental entities, except as provided in this section.

(b) Exceptions.

(1) This article does not apply to the city and any facilities owned and operated by it. But alarm systems operating on property owned by the city and leased to another are subject to this article.

(2) This article does not apply to proprietary alarm systems. Proprietary alarm systems are those whose alarm signals are not intended to elicit a response from the police department or fire department. Proprietary alarm systems include alarm systems connected to a control center that elicit a response by private security guards under the control of the proprietor of the premises. If a proprietary system includes a signal line connected directly or by means of an automatic dialing device to the police communications center, the fire department, a central station protective system, or an answering service, it becomes an alarm system and subject to this article.

(3) Alarm users of local alarm systems are subject to this article only where specifically mentioned. (Code 1988, § 19-463; Ord. No. 65971, § 3, 12-22-1994)

Sec. 19-185. Permit required.

(a) Every alarm user must obtain a permit to operate an alarm system within ten days after its installation. Application must be made to the alarm coordinator.

(b) Every alarm user must pay a registration fee in an amount set by the County Administrator

(c) If an alarm user does not apply for or renew a permit within 30 days of the dates required by this article, a fee will be charged, the amount of which will be set by the County Administrator.

(d) Alarm permits are valid for a calendar year. All alarm users must renew alarm permits between January 1 and January 31 of each year. Failure to renew is considered a failure to have a valid permit as required by this article.

(e) Alarm permits are nontransferable. Alarm users who take over control of an existing alarm system previously controlled by another alarm user must obtain a new permit.

(f) Each permit must be physically upon the premises using the alarm system and available for inspection by the police department or the fire department.

(g) Each permit shall contain the name of the current property owner or their representative and shall list a 24-hour emergency contact.

(h) A permit must be obtained for each facility with an alarm system, except only one permit is required

LEGAL NOTICE

for multiple structures at a single location with a single alarm system. If tenants in a multitenant building or complex have individual alarm systems, each tenant must obtain a permit.

(i) No permit will be issued or renewed for any alarm user who has any outstanding false alarm fees until such fees are paid.

(Code 1988, § 19-464; Ord. No. 65971, § 4, 12-22-1994; Ord. No. 66176, § 2, 12-5-1996)

Sec. 19-186. Unlawful acts; regulations.

(a) It shall be unlawful for any person to operate an alarm system without having first obtained a permit or without having renewed the permit as required by this article.

(b) It is unlawful for any alarm user to have more than three false alarms in a calendar year after the grace period allowed by this article.

(c) It is unlawful for any alarm system to emit a sound similar to that of an emergency vehicle siren or a civil defense warning system.

(d) Local alarm systems or any alarm system which can be heard outside the alarm user's premises must be equipped to automatically discontinue emitting an audible sound within five minutes of activation for personal residence and motor vehicles and within 15 minutes of activation for commercial buildings.

(e) Except for testing or necessary maintenance, it is unlawful for any person to activate any alarm system unless an actual emergency exists.

(f) It is unlawful for any person to make an alarm dispatch request if the person knows that such activation was caused by a malfunction of the alarm system.

(g) It is unlawful for any person to program an alarm system to automatically dial the city's 911 emergency telephone service line or to operate an alarm system that is automatically programmed to dial 911, except as permitted in section 22-383 or by other law or ordinance.

(h) It is unlawful for an alarm user to have an alarm system on any premises without providing address numbers, as required by city ordinance.

(i) It is unlawful for an alarm user to fail to pay any false alarm fee prescribed by this article.

(j) The central station or answering service shall cancel any alarm dispatch request by notifying the police and/or fire communication center. If there is no central station or answering service monitoring the alarm, alarm cancellations will not be accepted.

(k) If a central station or answering service cancels an alarm dispatch request before police or fire personnel have been dispatched, such false alarm will not be counted for purposes of determining chargeable false alarms.

(l) Central stations and answering services must make two attempts to verify all non-residential alarm signals by telephone call to the alarm user before calling for a police department response, except if the alarm signal indicates a hostage or duress situation. Verification requires contact with the alarm user and an affirmative request from the alarm user for a police response. Fire alarms need not be verified.

(m) Central stations and answering service must report alarm signals to telephone numbers designated by the alarm coordinator, police chief,

LEGAL NOTICE

or fire chief.

(n) An alarm business, alarm user, employee of a central station protective system or employee of an answering service charged with the responsibility of relaying a live voice request for police or fire response upon the activation of an alarm system shall give the following information to the police and/or fire communications center:

- (1) Address of alarmed location;
- (2) Type of alarm system that has been activated;
- (3) Name of commercial business or resident;
- (4) Specific location protected by the activated alarm;
- (5) Name of the alarm business making request, if applicable;
- (6) Name of person making the request; and
- (7) A phone number where the requesting party or their designated representative can be contacted.

(o) The alarm user must give written notice to the alarm coordinator within ten days whenever a change occurs in the registration information on file with the alarm coordinator.

(p) If an apartment complex provides alarm systems for its tenants, the owner or manager of the complex may either obtain one permit for the complex or may require each tenant to obtain a permit. The permit holder is responsible for payment of any false alarm fees incurred as a result of the operation of any alarm systems covered by the permit.

(q) If the alarm coordinator has reason to believe that an alarm system is not being used or maintained in a manner that ensures proper operation and suppresses false alarms, the alarm coordinator, police chief, or fire chief may (i) require a conference with an alarm user and the alarm business responsible for monitoring or repair of the alarm system to review the circumstances of each false alarm or (ii) suspend response to certain intrusion alarms in accordance with written police department policy.

(r) The police chief or the fire chief may establish rules and regulations, subject to the provisions of this article, as he deems necessary for the implementation and application of this article. Violation of any rule and regulation is a violation of this article.

(s) It is unlawful for any person to violate any of the provisions of this article.

(Code 1988, § 19-465; Ord. No. 65971, § 5, 12-22-1994)

Sec. 19-187. Excessive false alarms; fees; grace period.

(a) Residential alarms and alarms on not-for-profit facilities. Any alarm user whose alarm system, maintained on a residence or on a facility owned and operated by an instrumentality of the United States, by a political subdivision of the state, by a church, or by an organization qualifying under the Internal Revenue Code of 1954, 26 USC 501(c)(3), as it may be amended, has recorded more than three false alarms within a calendar year will be assessed false alarm fees in an amount set by the County Administrator.

(b) Commercial and industrial alarms. Except as provided in subsections (a) of this section, any alarm user whose alarm system has recorded more than three false alarms within a calendar year will be assessed false alarm fees in an amount set by the County Admin-

LEGAL NOTICE

istrator.

(d) Payment. The alarm user must pay the false alarm fee to the unified government director of revenue or to the alarm coordinator within 30 days after the date of the notice to pay.

(e) Additional penalties. Nothing contained in this section prohibits prosecution in municipal court for violations of this article and assessment of all other penalties provided by law.

(f) Outstanding fee; prosecution. If any false alarm fee remains unpaid 45 days after the date of the fee notice, an alarm user may be prosecuted in municipal court for violation of this article.

(Code 1988, § 19-466; Ord. No. 65971, § 6, 12-22-1994; 66176, § 3, 12-5-1996)

Sec. 19-188. False alarm determination; notice; review.

(a) The alarm coordinator is responsible for determining which alarms constitute false alarms. A record of all false alarms will be maintained by the alarm coordinator.

(b) After the third false alarm within a calendar year, the alarm coordinator will give written notice to the alarm user stating that additional false alarms in a calendar year will require the payment of a false alarm fee under this article. After each false alarm over three within a calendar year, the alarm coordinator will notify the alarm user of such occurrence and the amount of the false alarm fee due. Failure to receive any notice does not relieve the alarm user of any responsibilities under this article.

(c) An alarm user may request a review by the police chief or fire chief of a false alarm determination. The request for review must be submitted in writing and received within ten days of the date of the false alarm notice. The payment of a false alarm fee, if any, will be postponed pending the alarm review.

(d) The police chief or fire chief will send the alarm user a written review response within 20 days of the date the request for review was received.

(Code 1988, § 19-467; Ord. No. 65971, § 7, 12-22-1994; Ord. No. 66176, § 4, 12-5-1996)

Sec. 19-189. Appeals.

(a) Any alarm user who has been assessed a false alarm fee may appeal the assessment to the county administrator within ten days of the date of the fee notice or within ten days of the police chief or fire chief's decision, if a review was requested.

(b) The county administrator will appoint a hearing officer to hear the appeal.

(c) The hearing officer will send written notice of the time and place of the hearing to the alarm user and to the alarm coordinator at least ten days before the date set for the hearing.

(d) At the hearing, the alarm user and the alarm coordinator may present written and oral evidence and will be subject to cross examination.

(e) Within 20 days of the hearing, the hearing officer must issue a written decision upholding or setting aside the alarm coordinator's false alarm determination.

(f) If the hearing officer upholds the false alarm determination, the false alarm fee is due. If the hearing officer sets aside the false alarm determination, the false alarm will be removed from the alarm user's record.

(g) The filing of a request for appeal postpones the assessment until the hearing officer's decision.

LEGAL NOTICE

(h) Failure of an alarm user to appeal a fee assessment or to pay the fee assessment creates a conclusive presumption that the alarm signal is a false alarm and that the alarm user has violated this article.

(Code 1988, § 19-468; Ord. No. 65971, § 8, 12-22-1994; Ord. No. 66176, § 5, 12-5-1996)

Sec. 19-190. User instructions.

(a) At the time of installation, every alarm business installing or converting an alarm system must furnish the alarm user with the following items or information:

(1) Verbal and written instructions that provide information to enable the user to operate the alarm system properly and avoid false alarms;

(2) Instructions on how to obtain service for the alarm system at any time; and

(3) Notification of the requirement to obtain a city permit; verbal and written instructions on how to obtain a permit; and verbal and written instructions to review this article.

(c) Upon request, any alarm business installing or converting an alarm system in the city may furnish to the police chief or fire chief a copy of its written instructions to users. If the police chief or fire chief reasonably finds the instructions to be incomplete, unclear, or inadequate, the police chief or fire chief may require the alarm business to revise the instructions and to distribute the revised instruction to its alarm users.

(d) For purposes of this section, the term "converting" means the process by which an alarm business begins monitoring an alarm system previously installed or monitored by another alarm business.

(Code 1988, § 19-469; Ord. No. 65971, § 9, 12-22-1994)

Sec. 19-191. Identification of alarm businesses employees and agents.

(a) Upon the effective date of the ordinance from which this article is derived, all alarm businesses doing business in the city must issue to each of its employees and agents who, as part of their duties, enter personal residences or any other premises, an alarm business identification card.

(b) The alarm business identification card must contain, at a minimum, the following information:

- (1) Name;
- (2) Name of employing company;
- (3) Capacity with the company (e.g., salesman, repairman, installer, etc.);
- (4) Date of issue of the identification card;
- (5) Signature of employee or agent.

(c) While acting in the scope of his employment, each alarm business employee or agent must maintain the alarm business identification card and must produce the identification card upon request, together with a driver's license containing a picture of the employee or agent.

(d) An alarm business identification card is valid for two years from the date of issuance or until the employee or agent terminates employment or other relationship.

(e) Each fire alarm business doing business in the city must be properly registered with the Kansas State Fire Marshal's Office and provide their state credentials to the Alarm Coordinator, Police Chief, or Fire Chief upon request.

(Code 1988, § 19-470; Ord. No. 65971, § 10, 12-22-1994)

Sec. 19-192. Confidentiality.

LEGAL NOTICE

(a) All information submitted in compliance with this article is deemed a public record exempt from disclosure to the extent permitted by law.

(b) All information submitted in compliance with this article will be kept so that the contents are not disclosed except to persons authorized to administer and enforce this article.

(c) Subject to the requirements of confidentiality, the alarm coordinator will develop and maintain statistics to assist alarm system evaluation by members of the public and unified government board of commissioners.

(Code 1988, § 19-471; Ord. No. 65971, § 11, 12-22-1994)

Sec. 19-193. Penalty.

(a) Each conviction of a violation of any of the provisions or requirements of this article shall be punishable by a fine of not more than \$1000.00.

(b) Each person shall be guilty of a separate offense for each instance in which violation of this article is committed, continued or permitted.

(c) Any fine imposed by the court is in addition to any false alarm fees that have been assessed against the alarm user under this article.

(Code 1988, § 19-472; Ord. No. 65971, § 12, 12-22-1994)

Secs. 19-194—19-224. Reserved.

Section 2. That said, original Article VII - Alarm Businesses and Systems of the Code of Ordinances for the Unified Government of Wyandotte County / Kansas City, Kansas is hereby amended.

Section 3. This ordinance shall take effect and be in full force from and after its passage, approval, and publication in the official Unified Government newspaper.

PASSED BY THE BOARD OF COMMISSIONERS OF THE UNIFIED GOVERNMENT OF WYANDOTTE COUNTY / KANSAS CITY, KANSAS, THIS 7TH DAY OF MAY, 2026

ORDINANCE NO. 0-58-26

An ordinance relating to Chapter 30, Sewers and Sewage Disposal, Article I, amending Sec. 30-1; Article III, amending Sec. 30-66; Article IV, amending Sec. 30-96; Article V, amending Secs. 30-124 and 30-131; and Article IX, Sec. 30-351.

BE IT ORDAINED BY THE BOARD OF COMMISSIONERS OF THE UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS:

Section 1. That Sections 30-1, 30-66, 30-96, 30-124, 30-131, and 30-351 are hereby amended to read as follows:

Sec. 30-1. Definitions.

The following words, terms, and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning. Unless the context of usage indicates otherwise, the meaning of terms in this chapter and not defined in this section or in chapter 1 shall be defined in the Glossary of Water and Wastewater Control Engineering prepared by the Joint Editorial Board of the American Public Health Association, American Society of Civil

LEGAL NOTICE

Engineers, American Water Works Association and Water Pollution Control Federation, copyright 1981, or its replacement.

Act or the Act means the Federal Water Pollution Control Act, also known as the Clean Water Act, as amended, 33 USC 1251 et seq.

Applicant means any person requesting a permit to use the public sewer under any of the provisions of this chapter.

Approval authority means the EPA or Kansas Department of Health and Environment (KDHE). As regards the pretreatment program, if the pretreatment program has been formally delegated to the KDHE, it shall mean the director of the division of environment of KDHE.

Authorized or duly authorized representative of the user.

(1) If the user is a corporation:

a. The president, secretary, treasurer, or a vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation; or

b. The manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions that govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiate and direct other comprehensive measures to assure long-term environmental compliance with environmental laws and regulations; can ensure that the necessary systems are established or actions taken to gather complete and accurate information for individual wastewater discharge permit [or general permit (optional)] requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

(2) If the user is a partnership or sole proprietorship: a general partner or proprietor, respectively.

(3) If the user is a federal, state, or local governmental facility: a director or highest official appointed or designated to oversee the operation and performance of the activities of the government facility, or their designee.

(4) The individuals described in paragraphs 1 through 3, above, may designate a duly authorized representative if the authorization is in writing, the authorization specifies the individual or position responsible for the overall operation of the facility from which the discharge originates or having overall responsibility for environmental matters for the company, and the written authorization is submitted to the unified government.

(5) If the user is a trust: trustee.

Batch means the controlled discharge of a discrete, contained volume of wastewater.

Best management practices (BMPs) includes, but is not limited to, schedules of activities, prohibitions of practices, maintenance policies and other management procedures that are implemented to prevent or reduce the discharge of pollutants into the municipal sewer system, and to minimize the pollution of waters of the United States. The term "BMPs" also includes pretreatment equipment installation and requirements, operating procedures, practices to control runoff from developed sites,

LEGAL NOTICE

spillage or leaks, sludge or waste disposal, or drainage from raw material storage, and other structural controls such as dry extended detention ponds, wet ponds, infiltration basins, infiltration trenches, porous pavement, bioretention, sand and organic filters, stormwater wetlands, grassed swales, grassed filter strips, catch basins inserts, in-line storage, and manufactured products for stormwater inlets.

Board of county commissioners means the unified government of Wyandotte County/Kansas City, Kansas Board of County Commissioners.

Board of public utilities (BPU) means an administrative agency of the unified government of Wyandotte County/Kansas City, Kansas.

BOD (biochemical oxygen demand) means the quantity of oxygen utilized in the biochemical oxidation of organic matter as under EPA/KDHE-approved laboratory procedure in milligrams per liter.

BTEX means the sum of the concentrations of benzene, toluene, ethylbenzene, and the isomers of xylene (o-xylene, m-xylene, and p-xylene), as determined by an analytical method approved by the EPA or KDHE.

Building drain means that part of the lowest horizontal piping of a drainage system that receives the discharge from waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer beginning two feet outside the outer face of the building wall.

Building sewer, sewer service or private sewer means the sewer maintained and controlled by private persons for the purpose of conveying sewage or stormwater to public sewers including the extension from the building drain to the public sewer. The building sewer shall be deemed to begin at a point two feet outside the building or foundation wall. The building sewer ends at the point of connection to the public sewer and includes the connection.

Bypass means the intentional diversion of waste streams from any portion of an industrial user's treatment facility.

Categorical industrial user (CIU) means an industrial user subject to national categorical pretreatment standards.

Categorical pretreatment standard or categorical standard means any regulation containing pollutant discharge limits promulgated by EPA in accordance with sections 307(b) and (c) of the Act (33 U.S.C. section 1317) that apply to a specific category of users and that appear in 40 CFR Chapter I, Subchapter N, Parts 405-471.

COD (chemical oxygen demand) means the oxygen-consuming capacity of inorganic and organic matter present in wastewater, expressed as the amount of oxygen consumed from a chemical oxidant as under EPA/KDHE-approved laboratory procedure in milligrams per liter.

Class I-A means all wastewater or sewage discharged into a sanitary sewer by residential users. Equivalent to BPU Classes 080 and 080A.

Class I-B means all wastewater, sewage and industrial waste discharged into a sanitary sewer from commercial establishments that are not class II or class III. The term "class I-B" includes residential structures with three or more units that discharge into a sanitary sewer.

LEGAL NOTICE

Equivalent to BPU Class 081.

Class II includes all wastewater, sewage and industrial waste discharged into a sanitary sewer from establishments that prepares food for consumption by non-familiar persons. Equivalent to BPU Class 090.

Class III includes all wastewater, sewage and industrial waste discharged into a sanitary sewer from permitted industrial users. Equivalent to BPU Classes 083 and 086.

Clean Water Act means the federal Water Pollution Control Act (33 U.S.C. § 1251 et seq.), and any subsequent amendments thereto.

Code of Management Practices for Silver Dischargers means the best management practice established jointly by the Association of Metropolitan Sewerage Agencies (AMSA) and the Silver Council, including the Guide for Commercial Imaging, Guide for Diagnostic and Industrial X-Ray Film Processors and Guide for Photo Processors, copyright 1997, National Association of Photographic Manufacturers, Inc.

Combined sewer means a sewer designed to receive any combination of surface runoff and wastewater, sewage, or industrial wastes.

Connection or sewer connection means an attachment of a building sewer to a public sewer, or the location where such an attachment occurs. If the context specifically requires the interpretation, it also means the attachment of a newly constructed public sewer to an existing public sewer.

Construction activity. Activities subject to NPDES construction permits. Currently these include construction projects resulting in land disturbance of 1 acre or more. Such activities include but are not limited to clearing and grubbing, grading, excavating, and demolition.

Control authority means the environmental services division, KDHE or the EPA, depending on the level of oversight or jurisdiction for a facility or location.

Cooling waters means the water discharged from any use such as air conditioning, cooling, or refrigeration or to which the only pollutant added is heat.

Development means any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operations.

Direct discharge means the discharge of treated or untreated wastewater directly to the waters of the state.

Director refers to the director of environmental services or their designee for articles I (exception section 30-123), II, III, IV, V, VIII, and IX, county engineer for article I section 30-11 and section 30-123 and the director of the unified government health department or his designee for articles VI and VII.

Domestic sewage means sewage originating primarily from non-commercial kitchens, bathrooms, and laundry sources, including waste from food preparation, dishwashing, garbage grinding, toilets, baths, showers, and sinks.

Domestic wastes means liquid wastes from the noncommercial preparation, cooking and handling of food or containing human excrement and similar matter from the sanitary conveniences of dwellings, commercial buildings, industrial

LEGAL NOTICE

facilities, and institutions.

Drainageway or drainage channel means a natural or manmade storm-water conveyance system.

Environmental Protection Agency or EPA means the U.S. Environmental Protection Agency, or, where appropriate, the term may also be used as a designation for the administrator or other official of such agency.

Fats, oils, and grease (FOG) means oily or grease materials typically derived from animal or vegetable origins that have the potential for accumulations and blockage of sewers or otherwise may interfere with the operation of the collection system or publicly-owned treatment works (POTW), or become a removal problem at the POTW. FOG shall include all pollutants identified as FOG by an EPA-approved testing method or originate from mineral and petroleum-based products such as motor oil and industrial sources.

Garbage means solid wastes from the domestic or commercial preparation, cooking or dispensing of food, or from the handling, storage, or sale of food or produce.

Harmful quantity means the amount of any substance that the director determines will cause an adverse impact to the storm drainage system, including the municipal separate storm sewer system (MS4), or will contribute to the failure of the unified government to meet the water quality-based requirements of the NPDES permit for discharges from the MS4.

Hazardous materials means any material, including any substance, waste, or combination thereof, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may cause, or significantly contribute to, a substantial present or potential hazard to human health, safety, property, or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.

Health department means the public health department of the unified government.

Health officer means the director of the health department or his designee.

IDDE means illicit discharge detection and elimination, a program to identify and correct connections to the storm sewer system which have not been permitted or allowed.

Indirect discharge or discharge means the introduction of pollutants into the POTW from any nondomestic source.

Illicit connections means as either of the following:

(1) Any drain or conveyance, whether on the surface or subsurface, which allows an illegal discharge to enter the storm drain system including but not limited to any conveyances which allow any non-storm water discharge including sewage, process wastewater, and wash water to enter the storm drain system and any connections to the storm drain system from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by an the director, or

(2) Any drain or conveyance connected from a commercial or industrial land use to the storm drain system which has not been documented in plans, maps, or equivalent records and approved by the director.

LEGAL NOTICE

Illicit discharge means any discharge to a municipal separate storm sewer system that is not composed entirely of stormwater, except discharges pursuant to a National Pollutant Discharge Elimination System (NPDES) permit.

Industrial activity means activities subject to NPDES industrial permits as defined in 40 CFR, Section 122.26(b)(14).

Industrial user means any user contributing industrial wastes to the municipal sewer system.

Industrial wastes or industrial wastewater means the liquid or waterborne wastes from industrial manufacturing processes, trade, commerce, or business, including medical offices or facilities, other than domestic sewage.

Infiltration means water other than wastewater that enters a sewer system (including sewer service connections and foundation drains) from the ground through such means as defective pipes, pipe joints, connections, or manholes. Infiltration does not include, and is distinguished from, inflow.

Inflow means water other than wastewater that enters a sewer system (including sewer service connections) from sources such as, but not limited to, roofleaders, cellar drains, yard drains, area drains, drains from springs and swampy areas, manhole covers, cross connections between storm sewers and sanitary sewers other than in combined sewers, catch basins, cooling towers, storm waters, surface runoff, street wash waters, or drainage. Inflow does not include, and is distinguished from, infiltration.

Interceptor sewer commonly means a public sewer that carries large flows concentrated from many tributary or secondary sewers; specifically, it means a sewer designated by the director as an interceptor sewer.

Interference means a discharge or disruption that, alone or in conjunction with a discharge or discharges from other sources, inhibits or disrupts the POTW, its treatment processes or operations or its sludge processes, use or disposal; and therefore, is a cause of a violation of the unified government's NPDES permit or of the prevention of sewage sludge use or disposal in compliance with any of the following statutory/regulatory provisions or permits issued thereunder, or any more stringent State or local regulations: section 405 of the Act; the Solid Waste Disposal Act, including Title II commonly referred to as the Resource Conservation and Recovery Act (RCRA); any State regulations contained in any State sludge management plan prepared pursuant to Subtitle D of the Solid Waste Disposal Act; the Clean Air Act; the Toxic Substances Control Act; and the Marine Protection, Research, and Sanctuaries Act.

KDHE means the Kansas Department of Health and Environment or, where appropriate, the term may be used as a designation for the administrator or other official of such agency.

Low pressure sewer system or LPS means a sewage collection and transport system operated at a low pressure in which building sewers are pressurized and discharge directly into a public sewer. Compared to other force mains that receive concentrated flows of wastewater

LEGAL NOTICE

from a gravity sewer at, usually, a single pump station, an LPS is designed for low flow, usually operates at lower pressure, and usually has multiple pressurized building services connected. Equivalent to BPU Class 080A.

Maximum extent practicable means the use of those best management practices, which, based on sound engineering and hydrogeological principles, will, to the greatest degree possible, given all relevant considerations, including technology, climate, and site conditions, prohibit erosion and sedimentation during and after development.

MBAS (methylene blue active substance) means any substance that brings about the transfer of methylene blue, a cationic dye, from an aqueous solution into an immiscible organic layer upon equilibrium.

Municipal separate storm sewer system (MS4) means a conveyance, or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, roadside ditches, manmade channels, or storm drains):

(1) Owned or operated by a state, city, town, borough, county, parish, district, association, or other public body (created by or pursuant to state law) having jurisdiction over disposal of wastes, stormwater, or other sewer district, flood control district or drainage district, or similar entity, or an Indian Tribe or an authorized Indian tribal organization, or a designated and approved management agency under section 208 of the CWA (33 USC 1288) that discharges to waters of the United States;

(2) Designated or used for collecting or conveying stormwater;

(3) Which is not a combined sewer; and

(4) Which is not part of a publicly owned treatment works (POTW) as defined at 40 CFR 122.2.

Municipal sewer system means the facilities that are owned or operated by the unified government for the collection, transportation, pumping, treating and disposal of wastewater, sewage, and industrial waste. Such facilities may include, but are not limited to, sanitary sewers, combined sewers, interceptor sewers, low pressure sewers, pump stations, force mains, treatment plants, sludge handling and disposal facilities, and outfalls.

National Pollutant Discharge Elimination System (NPDES) storm water discharge permit means a permit issued by EPA (or by a state under authority delegated pursuant to 33 USC § 1342(b)) that authorizes the discharge of pollutants to waters of the United States, whether the permit is applicable on an individual, group, or general area-wide basis.

National prohibitive discharge standard or prohibitive discharge means any regulation developed under the authority of section 307(b) of the Act (33 USC 1317(b)) and 40 CFR 403.5.

Natural outlet means any outlet into a watercourse, pond, ditch, lake, or other body of surface water or groundwater.

New source means:

(1) Any building, structure, facility, or installation from which there is or may be a discharge of pollutants, the construction of which commenced after publication of proposed pretreatment standards under section 307(c) of the Clean Water Act, 33 USC 1317(c) et seq., which will

LEGAL NOTICE

be applicable to such source if such standards are thereafter promulgated in accordance with that section, provided that:

a. The building, structure, facility, or installation is constructed at a site at which no other source is located;

b. The building, structure, facility, or installation totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or

c. The production or wastewater generating processes of the building, structure, facility, or installation are at the same site. In determining whether these are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the existing source should be considered.

(2) Construction on a site at which an existing source is located results in a modification rather than a new source if the construction does not create a new building, structure, facility, or installation meeting the criteria stated in subsections (1)b or (1)c of this definition but otherwise alters, replaces, or adds to existing process or production equipment.

(3) Construction of a new source, as defined under this section, has commenced if the owner or operator has:

a. Begun, or caused to begin as part of a continuous on-site construction program:

1. Any placement, assembly, or installation of facilities or equipment;

2. Significant site preparation work including clearing, excavation, or removal of existing buildings, structures, or facilities which is necessary for the placement, assembly, or installation of new source facilities or equipment; or

b. Entered into a binding contractual obligation for the purchase of facilities or equipment that are intended to be used in its operation within a reasonable time. Options to purchase or contracts that can be terminated or modified without substantial loss, and contracts for feasibility, engineering, and design studies do not constitute a contractual obligation under this definition.

Non-significant categorical industrial user (NSCIU) means and industrial user subject to categorical pretreatment standards under 40 CFR 403.6 and 40 CFR chapter I, subchapter N, that the POTW has determined is exempt from the definition of SIU on a finding that the IU never discharges more than 100 gpd of total categorical wastewater (excluding sanitary, noncontact cooling and boiler blowdown wastewater, unless specifically include in the pretreatment standard). The IU must also meet the following conditions:

a. The IU, before the POTW's finding, has consistently complied with all applicable categorical standards and requirements;

b. The IU annually submits the certification statement required in 40 CFR 403.12(q) together with any additional information necessary to support the certification statement;

c. The IU never discharges any untreated concentrated wastewater.

Non-significant industrial user (NIU) means any industrial user which has a wastewater discharge permit, but is not identified as a significant industrial user.

Non-storm water discharge means

LEGAL NOTICE

any discharge to the storm drain system that is not composed entirely of storm water.

North American Industry Classification System (NAICS) means the standard used by federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. It replaces Standard Industrial Classification (SIC).

Obligations means any obligations of the unified government payable from the revenues of the sewer system.

Pass through means discharge which exits the POTW into waters of the United States in quantities or concentrations which, alone or in conjunction with a discharge or discharges from other sources, is a cause of a violation of any requirement of the unified government's NPDES permit, including an increase in the magnitude or duration of a violation.

Permit means a written permit issued by the director or health officer approving and authorizing activities related to the municipal sewer system or the treatment and disposal of wastewater as identified in this chapter. Specific types of permits are addressed in the various articles of this chapter.

Permitted industrial user means any person that has a wastewater discharge permit issued by environmental services.

Person means any individual, association, organization, partnership, firm, trust, corporation, or other entity recognized by law and acting as either the owner or as the owner's agent.

pH means the logarithm of the reciprocal of the concentration of the hydrogen ions, represented by S.U. (standard units).

Photographic processing facility means a facility that processes images from silver-sensitive films and papers. This includes, but is not limited to, commercial photographic and film processing facilities, in-house photographic processing facilities, microbiology labs, printers, X-ray and other medical, dental, industrial, or institutional diagnostic facilities which use silver-based imaging materials, the processing of which produces a silver-rich solution.

Pollutant means anything which causes or contributes to pollution. Pollutants may include, but are not limited to: paints, varnishes, and solvents; oil and other automotive fluids; non-hazardous liquid and solid wastes and yard wastes; refuse, rubbish, garbage, litter, or other discarded or abandoned objects, ordinances, and accumulations, so that same may cause or contribute to pollution; floatables; pesticides, herbicides, and fertilizers; hazardous substances and wastes; sewage, fecal coliform, E Coli and pathogens; dissolved and particulate metals; animal wastes; wastes and residues that result from constructing a building or structure; and noxious or offensive matter of any kind.

Pollution means the manmade or man-induced alteration of the chemical, physical, biological, and radiological integrity of water.

Pollution prevention plan means BMPs and other structural, procedural and operations and maintenance provisions designed and operated to reduce or eliminate the discharge of pollutants, particularly

LEGAL NOTICE

in stormwater runoff.

Premises means any building, lot, parcel of land, or portion of land whether improved or unimproved including adjacent sidewalks and parking strips.

Pretreatment or treatment means the reduction of the amount of pollutants, the removal of pollutants or the alteration of the nature of pollutant properties in wastewater to a less harmful state prior to or in lieu of discharging or otherwise introducing such pollutants into the municipal sewer system. The reduction or alteration can be obtained by physical, chemical, or biological processes, process changes or by other means, except by dilution as prohibited by federal regulation.

Pretreatment requirements means any substantive or procedural requirement related to pretreatment imposed on a user, other than a pretreatment standard.

Pretreatment standards or standards means prohibited discharge standards, categorical pretreatment standards, and local limits.

Private on-site wastewater system means any sewage system designed or constructed for disposal of domestic sewage or industrial wastes in which there will not be any discharge of raw or treated wastes into any freshwater aquifer or into any watercourse or into any sanitary sewer or onto any adjacent properties other than that of the property served.

Public sewer means that portion of the municipal sewer system designed for the collection and transport of wastewater from the service connection to the sewage treatment works.

Residential user means discharges from a single-family dwelling or duplex.

Resource Conservation and Recovery Act (RCRA) is the principal Federal law governing the disposal of solid and hazardous waste. Certain industries that dispose of quantities exceeding a minimum threshold of hazardous waste must report the quantities disposed of. The EPA publishes a list of the generators of these hazardous waste products and the quantities. This list is used by the UG to identify industrial sites that warrant inclusion into the Industrial Stormwater Program.

Sanitary sewer means a sewer that carries wastewater, sewage, or industrial wastes, and to which stormwaters, surface waters, and groundwaters are not intentionally admitted.

Sewage treatment works means that portion of the municipal sewer system that is designed for the treatment and disposal of wastewater and the handling and disposal of the concentrated wastes from that process.

Sewer means a pipe or enclosed conduit for the collection and transport of wastewater and/or stormwater.

Significant industrial user means:

(1) All categorical industrial users except those designated as NSCIUs.

(2) Any noncategorical industrial user that:

a. Discharges 25,000 gallons per day or more of process wastewater ("process wastewater" excluding sanitary, noncontact cooling and/or boiler blowdown wastewaters);

b. Contributes a process wastewater stream which makes up five percent or more of the average dry weather hydraulic or organic (BOD, TSS, etc.) capacity of the treatment plant

LEGAL NOTICE

receiving the wastewater; or

c. The control authority or approval authority has determined has a reasonable potential to adversely affect the POTW treatment plant by inhibition, pass through or pollutants, sludge contamination, or endangerment of POTW workers.

The control authority may decide to remove any noncategorical industrial user from the list of significant industrial users if the industrial facility has no reasonable potential to violate any pretreatment standards (general and specific prohibitions or local limits).

Significant noncompliance (SNC) means noncompliance in one or more of the following categories:

(1) Category 1. Chronic violations of wastewater discharge limits, defined herein as those in which 66 percent or more of all of the measurements taken during a six-month period exceed (by any magnitude) the daily maximum limit or the average limit for the same pollutant parameter.

(2) Category 2. Technical review criteria (TRC) violations, defined herein as those in which 33 percent or more of all of the measurements for each pollutant parameter taken during a six-month period equal or exceed the product of the daily maximum limit or the average limit multiplied by the applicable TRC (TRC = 1.4 for BOD, TSS, fats, oil, and grease, and 1.2 for all other pollutants except pH).

(3) Category 3. Any other violation of a pretreatment effluent limit (daily, maximum, or longer-term average) that the control authority determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public).

(4) Category 4. Any discharge of a pollutant that has caused imminent endangerment to human health, welfare or to the environment or has resulted in the POTW's exercise of its emergency authority to halt or prevent such a discharge.

(5) Category 5. Failure to meet, within 90 days after the schedule date, a compliance schedule milestone contained in a wastewater discharge permit or enforcement order for starting construction, completing construction, or attaining final compliance.

(6) Category 6. Failure to provide, within 45 days after the due date, required reports, such as baseline monitoring reports, 90-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules.

(7) Category 7. Failure to accurately report noncompliance.

(8) Category 8. Any other violation or group of violations that the control authority determines will adversely affect the operation or implementation of the local pretreatment program.

Silver-rich solution means a solution containing sufficient silver such that cost-effective recovery can be done either on-site or off-site. Within photographic processing facilities, such solutions include, but are not limited to, fix and bleach-fix solutions, stabilizers (e.g., plumbless stabilizers and chemical washes), low replenished (low-flow) washes, and all functionally similar solutions. It does not include such low silver solutions as used developers, bleaches, stop baths, pre-bleaches,

LEGAL NOTICE

or stabilizers following washes and wash waters.

Slug load or slug discharge means any discharge at a flow rate or concentration, which could cause a violation of the prohibited discharge standards in section 30-124. A slug discharge is any discharge of a non-routine, episodic nature, including but not limited to an accidental spill or a non-customary batch discharge, which has a reasonable potential to cause interference or pass through, or in any other way violate the POTW's regulations, local limits or permit conditions.

Standard Industrial Classification (SIC) means a classification pursuant to the most recent edition of the Standard Industrial Classification Manual issued by the executive office of the president, office of management and budget.

Storm drainage system means all surfaces, structures and systems that contribute to, manage, or convey stormwater, including private drainage systems, the MS4, retention and infiltration facilities, natural drainageways, surface water, groundwater, waters of the state and the United States.

Storm sewer or storm drain means a sewer that carries stormwaters and surface waters and other unpolluted water identified in the unified government NPDES permit, but excludes wastewater, sewage, and industrial wastes.

Stormwater means any flow occurring during or following any form of natural precipitation and resulting therefrom.

Stormwater pollution prevention plan (SWPPP) means document which describes the best management practices and activities to be implemented by a person or business to identify sources of pollution or contamination at a site and the actions to eliminate or reduce pollutant discharges to stormwater, stormwater conveyance systems, and/or receiving waters to the maximum extent practicable.

Superfund Amendments and Reauthorization Act (SARA) Title III Section 313 Toxic Release Inventory (TRI) means the federal EPA program that tracks the waste management of certain toxic chemicals that may pose a threat to human health and the environment. U.S. facilities in different industry sectors must report annually how much of each chemical they release into the environment and/or managed through recycling, energy recovery and treatment, as well as any practices implemented to prevent or reduce the generation of chemical waste. The information submitted by facilities is compiled in the Toxics Release Inventory. TRI helps support informed decision-making by companies, government agencies, non-governmental organizations and the public.

Surcharge means an additional fee, included as part of the water pollution abatement, which is in addition to the domestic fees and is based on a higher COD, TSS, and/or oil and grease reading.

Tap or tapping refers to the materials, labor, and operations necessary to create or replace a connection.

Total suspended solids (TSS) means solids that either float on the surface of, or are in suspension in, water, sewage, or other liquids, and which are removable by laboratory filtering.

Total toxic organics (TTO) means

LEGAL NOTICE

total toxic organics, which is the summation of all quantifiable values greater than 0.01 milligram per liter of all constituents included in 40 CFR 413.02(i) or its replacement.

Toxic pollutant means any pollutant or combination of pollutants listed as toxic in regulations promulgated by the administrator of the EPA under the provision of section 307(a) (1) of the act (33 USC 1317(a)(1)).

Uncontaminated means not containing harmful quantities of pollutants.

Unified government sewer system means the municipal sewer system owned and operated by the unified government.

Unpolluted water means water of quality equal to, or better than, the effluent criteria in effect, or water that would not cause violation of receiving water quality standards and would not be benefited by discharge to the sanitary sewers and wastewater treatment facilities provided.

Upset means an exceptional incident in which there is unintentional and temporary noncompliance with pretreatment standards, limitations in a wastewater discharge permit, or local standards because of factors beyond the reasonable control of the industrial user. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

User or sewer user means any person who contributes, causes, or permits the contribution of wastewater into the municipal sewer system.

Waste hauler means any person who cleans and/or transports approved wastewater or sludge from septic tanks, grease traps, portable toilets, car/truck wash operations, chemical or petroleum processes, sewer cleaning or other similar services.

Wastewater or sewage means the liquid and water-carried industrial or domestic wastes from dwellings, commercial buildings, industrial facilities, and institutions, together with any groundwater, surface water, and stormwater that may be present, whether treated or untreated.

Wastewater discharge permit has the meaning as set forth in article II of this chapter.

Watercourse means a channel in which a flow of water occurs, either continuously or intermittently.

Waters of the state means all streams, lakes, ponds, marshes, watercourses, waterways, wells, springs, reservoirs, aquifers, irrigation systems, drainage systems and all other bodies or accumulations of water, surface or underground, natural, or artificial, public, or private, which are contained within, flow through or border upon the state or any portion thereof.

(Code 1988, § 30-1; Ord. No. O-46-05, § 1, 6-2-2005; Ord. No. O-27-14, § 3, 4-10-2014; Ord. No. O-28-14, § 1, 5-1-2014; Ord. No. O-1-20, § 1, 1-9-2020; Ord. No. O-79-21, § 1, 6-10-2021; Ord. No. O-128-23, § 1, 10-12-2023)

Cross reference(s)—Definitions generally, § 1-2.

Sec. 30-66. Initial tapping of or connection to sanitary and storm sewers.

(a) Taps made to an existing public sanitary or storm sewer shall be made by the environmental services division, a contractor working for the

LEGAL NOTICE

unified government's public works department, or a licensed plumber. Connections shall be made in compliance with plans and specifications approved by the director.

(b) Fees for taps and connection permits shall be set by the county administrator. Tap fees may be waived in cases where the building sewer is to be attached to an existing wye or stub.

(c) Taps installed by licensed plumbers shall be inspected by the director's representative prior to backfill. Minimum notice for the inspection shall be 24 hours. If the director's representative is not on site within two hours after the scheduled time for inspection, the permittee may proceed with the work.

(d) Design, construction and inspection of public sewers and storm sewers shall conform to the standards adopted by the director. Designs for extensions of the public sewer and storm sewer shall be approved by the director prior to construction. Construction of new public sewers shall be only made by:

(1) The unified government;

(2) A contractor working for the unified government's public works department;

(3) A contractor employed by a private developer who has entered a development agreement with the unified government for the construction and dedication to the unified government of public infrastructure; or

(4) A contractor employed by a private developer who has entered into a building permit with the unified government for the construction and dedication to the unified government of public infrastructure.

(Code 1988, § 30-87; Ord. No. O-46-05, § 1, 6-2-2005)

Sec. 30-96. Establishment of sewer service charges.

(a) Based upon that projected annual budget adopted by the unified government board of commissioners, the county administrator shall each year recommend to the unified government board of commissioners the rates. The unified government board of commissioners shall establish by regulation the rates for sewer charges to ensure that the system generates adequate annual revenues to pay the annual costs of operation and maintenance including replacement of the unified government's sewer system, to satisfy costs associated with any obligations and to provide for costs associated with the unified government capital improvement plan and the expenses of the annual operation of the environmental services division for providing service as required by this Code.

(b) The regulation shall become effective upon publication once in the official unified government newspaper.

(c) The sewer service charge shall be based on the user's proportionate use of the unified government's system and shall provide for unit charges and monthly connection charge for class I-A, class I-B, class II and class III discharges.

(d) A rate relief account is hereby established within the sewer system fund. Any savings represented in the difference between actual operating expenses and the amount budgeted for operating expenses shall be allocated to the rate relief account. The unified government budget director shall certify to the unified government board of commissioners the amount of such allocation not later

LEGAL NOTICE

than one month after the county administrator establishes rates by administrative regulations. The amount contained in the rate relief account shall be appropriated by the unified government board of commissioners to reduce the amount of future increases in the sewer service charges.

(Code 1988, § 30-128; Ord. No. O-46-05, § 1, 6-2-2005)

Sec. 30-124. Prohibited discharges.

(a) No person shall contribute or cause to be contributed, directly or indirectly, any pollutant or wastewater which will cause interference with the operation or performance of the municipal sewer system (including treatment facilities). These general prohibitions apply to all such users of the municipal sewer system whether or not the user is subject to national categorical pretreatment standards or any other national, state, or local pretreatment standards or requirements. A user shall not contribute the following substances:

(1) Any liquids, solids or gases which by reason of their nature and quantity are or may be sufficient, either alone or by interaction with other substances, to cause fire or explosion or be injurious in any other way to the municipal sewer system or to the operation of the sewage treatment works; any petroleum oil, nonbiodegradable oil, or products of mineral oil origin in amounts that will cause interference or pass through; or any pollutant resulting in the presence of toxic gases, vapors or fumes within the sewers or POTW sufficient to cause worker health and safety problems. Any noxious or malodorous liquids, solids, or gases which, singly or by interaction with other wastes, are sufficient to create a public nuisance or hazard to life or are sufficient to prevent entry into the sewers for maintenance and repair. At no time shall two successive readings on an explosion hazard meter, at the point of discharge into the system (or at any point in the system), be more than five percent nor any single reading over ten percent of the lower explosive limit (LEL) of the meter. Prohibited materials include, but are not limited to, gasoline, fuel oil, kerosene, naphtha, ethers, alcohols, ketones, aldehydes, peroxides, chlorates, perchlorates, bromates, carbides, hydrides, sulfides, any other substances which are a fire hazard or a hazard to the system and waste streams containing substances with a closed cup flashpoint of less than 140 degrees Fahrenheit or 60 degrees Celsius using test methods specified by EPA.

(2) Any solids, natural or man-made fibers, insoluble or emulsified oils, fats, or greases, slurries or viscous materials of such character or in such quantity that may cause an obstruction to the flow in the sewer or otherwise interfere with the proper functioning of the sewage treatment works such as, but not limited to, ashes, cinders, sand, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, hides, paunch manure, hair and fleshings, entrails, spent lime, stone or marble dust, grass clippings, spent grains, spent hops, asphalt residues, residues from the refining or processing of fuels or lubricating oils, glass grinding or polishing wastes, and paper dishes, cups, milk containers, etc., either whole or

LEGAL NOTICE

ground by garbage grinders.

(3) Any waters, waste, material or substances which are corrosive or irritating to human beings or animals, or are toxic or noxious or which contain toxic, poisonous or conventional pollutants that are solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, and cause interference or pass through or otherwise injure or interfere with the sewage treatment process, including by not limited to sludge use and disposal, or which constitute a hazard to humans or animals, or which create a public nuisance, or which create any hazard in the receiving waters of treated effluent or the sewage treatment works.

(4) Health department permitted hauled wastes, except at selected locations as designated by the director of environmental services.

(5) Acetylene generation sludge.

(6) For facilities that manufacture biodegradable and/or food grade emulsified and dissolved oils, the director may establish mass-based limits. Waters or wastes containing substances that may solidify or become viscous at temperatures between 32 and 150 degrees Fahrenheit are prohibited, except at selected locations as designated by the director.

(7) Any waters or wastes containing strong acid, iron, pickling wastes, or concentrated plating solutions, whether neutralized or not.

(8) Any waters or wastes containing phenols or other taste- or odor-producing substances, in such concentrations exceeding limits established by the director as necessary, after treatment of the composite sewage, to meet the requirements of local, state, federal or other public agencies of jurisdiction for such discharge to the receiving waters.

(9) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits of radiation ($\mu\text{Ci/ml}$) established by the director in compliance with applicable local, state, or federal regulations.

(10) Any waters or wastes having a pH less than 5.5 standard units (SU) or in excess of 11.0 SU.

(11) Materials that exert or cause a significant load on the sewage treatment works or a discharge of any pollutant that is sufficient to cause or is likely to cause interference and pass through, such as:

a. Concentrations of inert suspended solids (such as, but not limited to, diatomaceous or Fuller's earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride or sodium sulfate).

b. BOD, COD, chlorine.

c. Volumes of flow or concentration of wastes constituting "slugs" as defined herein.

(12) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment works effluent cannot meet the requirements of agencies having jurisdiction over discharge to the receiving waters, or any substance which may cause the sewage treatment works effluent or any other product of the municipal sewer system such as residues, sludges or scums to be unsuitable for reclamation and reuse or to interfere with the reclamation process. In no

LEGAL NOTICE

case shall a substance discharged to the municipal sewer system cause the sewage treatment works to be in noncompliance with sludge uses or disposal criteria, guidelines, or regulations developed under Section 405 of the Act (33 USC 1345); any criteria, guidelines or regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act (42 USC 6901 et seq.), the Clean Air Act (42 USC 7401 et seq.), the Toxic Substances Control Act (15 USC 2601 et seq.), or state criteria applicable to the sludge management method being used.

(13) Detergents, surface-active agents or other substances which may cause excessive foaming in the POTW:

m. BTEX (total): 16 mg/l.
Equivalent mass limits may be allocated to industrial users for any of the limits set out in this subsection at the director's discretion. In no case shall a wastewater discharge permit limit for discharge to the municipal sewer system be less stringent than the federal or state limit if it exists. This would apply to categorical industries and may apply to specific industries identified by the unified government or state.

(14) a. The director is authorized to establish local limits pursuant to 40 CFR 403.5(c).

b. The following pollutant limits are established to protect against pass through and interference. No person shall discharge wastewater containing in excess of the following:

Any wastes contributed by users of the POTW that, either singly or in conjunction with other significant industrial users, cause the Kaw Point POTW influent to exceed the following limits (lbs./day):

1. Arsenic: 1.848
2. Ammonia: 6,927
3. BOD: 72,850
4. Cadmium: 1.044
5. Chromium: 110,000
6. Copper: 33,478
7. Cyanide: 0.975
8. Lead: 2.166
9. Mercury: 0.654
10. Molybdenum: 74,400
11. Nickel: 35,383
12. Selenium: 4,759
13. Silver: 17,729
14. TSS: 69,016
15. Zinc: 72,423

(15) a. The director is authorized to establish local limits pursuant to 40 CFR 403.5(c).

b. The following pollutant limits are established to protect against pass through and interference. No person shall discharge wastewater containing in excess of the following:

Any wastes contributed by users of the POTW that, either singly or in conjunction with other significant industrial users, cause the treatment plant # 20 POTW influent to exceed the following limits (lbs./day):

1. Ammonia: 131
2. Arsenic: 0.834
3. BOD: 8,622
4. Cadmium: 0.691
5. Chromium: 4,024
6. Copper: 26,496
7. Cyanide: 3,101
8. Lead: 5,802
9. Mercury: 0.507
10. Molybdenum: 0.815
11. Nickel: 5,408
12. Selenium: 1,095
13. Silver: 7,947
14. TSS: 7,826
15. Zinc: 31,779

The above limits apply at the point where the wastewater is discharged

LEGAL NOTICE

to the POTW. All concentrations for metallic substances are for total metal unless indicated otherwise. The director may impose mass limitations in addition to the concentration-based limitations above.

c. The director may develop best management practices (BMPs), by ordinance or in individual wastewater discharge permits to implement local limits and the requirements of section 30-124(a)(14).

(16) No user using silver in manufacturing or as part of a process operation, including, but not limited to, the development and/or printing of photographic pictures or X-rays, precious metal plating, or any operation where silver is reasonably expected to be found in the facility's wastewater, shall discharge silver bearing wastewater to the public sewer without first treating the wastewater to remove the silver or subjecting the wastewater to a silver recovery process. Requirements listed in best management practices (BMPs) that have been approved by the director will be enforceable by the environmental services division. The use of an approved BMP by an industrial user shall be governed by the policies established by the director. These include but are not limited to the provisions for sampling and inspection by the unified government and sampling and reporting requirements for the facility. It shall be unlawful for an industrial user to discharge a silver-rich solution from a photographic processing facility or otherwise introduce such solution into the municipal sewer system, unless such silver-rich solution is managed by the photographic processing facility in accordance with the Code of Management Practice for Silver Dischargers, as identified in section 30-1, prior to its introduction into the municipal sewer system. The Code of Management Practice for Silver Dischargers is a fully enforceable element in the unified government's industrial pretreatment program and constitutes a local limitation for silver discharged from photographic processing facilities. If a photographic facility does not comply with the requirements in the Code of Management Practice for Silver Dischargers, the numeric limitation for silver (Ag) per subsection (14) or (15) of this section will be enforced.

(17) Heat in amounts which will inhibit biological activity in the POTW resulting in interference, but in no case heat in such quantities that the temperature at the POTW treatment plant exceeds 40°C (104°F), unless alternate temperature limits are approved by the director.

(b) The director may remove parameters from identified categorical industrial users or other permitted industrial users which are not present at the facility and have not been detected in the most recent three years of sampling performed by the industrial user and the UG. The industrial user must petition the director to have the parameter(s) removed from the industrial user's wastewater discharge permit. The petition must include the certification that the analyte is not present on the property. The industrial user will be required to certify the absence of the parameter with each periodic compliance report is submitted to the UG. The UG may continue to sample for the parameter. If any sampling detects the presence of the removed parameter, the wastewater discharge

LEGAL NOTICE

permit will be modified to include the parameter for future testing.

(Code 1988, § 30-173; Ord. No. O-46-05, § 1, 6-2-2005; Ord. No. O-57-13, § 2, 12-5-2013; Ord. No. O-79-21, § 21, 6-10-2021; Ord. No. O-128-23, 10-12-2023)

Sec. 30-131. Code of Management Practices for Silver Dischargers adopted.

The Code of Management Practices for Silver Dischargers, as referenced in section 30-1, is incorporated herein by reference. If there exists or arises any conflict between the Code and the provisions of the Code of Management Practices for Silver Dischargers, then the provisions of this Code are controlling. There shall be not less than three copies of the Code of Management Practices for Silver Dischargers kept on file in the office of the unified government clerk, to which shall be attached a copy of this incorporating ordinance and which shall be marked or stamped "Official Copies as Incorporated by Ordinance No. 30-180," and said code shall be open to inspection and available to the public at reasonable hours. The division of environmental services and the municipal judges and all administrative departments of the unified government charged with the enforcement of this article shall be supplied, at the cost of the unified government, such number of official copies of such standard ordinance.

(Code 1988, § 30-180; Ord. No. O-46-05, § 1, 6-2-2005)

Sec. 30-351. FOG discharge permit required.

(a) All FSFs, FSEs and FOG generating businesses shall have a valid FOG discharge permit.

(b) Application for a FOG discharge permits shall be on forms provided by the unified government. Applications shall be verified and shall include the following information:

- (1) Business name and address;
- (2) FOG control equipment type;
- (3) OG control equipment size or capacity;
- (4) Cleaning/maintenance frequency.

(c) FOG discharge permits shall be issued annually and expire on December 31 of each year, or as otherwise determined by the director. The facility owner/operator shall apply for a FOG discharge permit reissuance no less than 30 days prior to the expiration of the facility owner/operator's existing FOG discharge permit. The terms and conditions of the FOG discharge permit may be subject to modification by the director during the term of the FOG discharge permit as limitations or requirements as identified in this article are modified or other just causes exist. The facility owner/operator shall be informed of any proposed changes in the FOG discharge permit at least 30 days prior to the effective date of change. Any changes or new conditions in the FOG discharge permit shall include a reasonable time schedule for compliance.

(d) An FCE pumping/maintenance log shall be maintained for each FCE device. This log shall include the date, type of service, service provider, disposal site (if known), volume pumped and service comments. This log shall be kept in an accessible and known location for inspection. This log shall be made immediately available to any WPC representative upon request.

LEGAL NOTICE

(e) An employee best management practices (BMP) training log shall be maintained for each FSE and FOG generating business employee and submitted annually to environmental services. This log shall include the facility name, facility location, employee's name, initial training date and subsequent follow-up training dates. This log shall be kept in an accessible and known location for inspection. This log shall be made immediately available to any WPC representative upon request.

(f) The annual FOG discharge permit fee for 2023 shall be \$0. Thereafter the annual fee shall be established by the Board of Commissioners.

(Ord. No. O-57-13, § 3, 12-5-2013; Ord. No. O-79-21, § 38, 6-10-2021; Ord. No. O-128-23, 10-12-2023)

Section 2. This ordinance shall take effect and be in full force from and after the passage, approval, and publication in the official Unified Government newspaper.

PASSED BY THE BOARD OF COMMISSIONERS OF THE UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS, THIS 7th DAY OF May, 2025.

Attest: Unified Government Clerk Approved As To Form: Daniel Kuhn, Assistant Counsel (First published 5-28-26) 1t-The Wyandotte Echo-5-28-26

RESOLUTION NO. R-26-26

A RESOLUTION ACCEPTING FEMA PUBLIC ASSISTANCE GRANT FUNDS AND REIMBURSEMENTS RELATED TO SEVERE STORMS, STRAIGHT-LINE WINDS, AND FLOODING DAMAGE IN JULY 2025

WHEREAS, on July 17, 2025, a State of Local Disaster Emergency was declared for Wyandotte County due to severe storms, straight-line winds, and flooding for the period of July 17, 2025, through July 22, 2025.

WHEREAS, in December 2025, President Donald Trump approved a major presidential disaster declaration for public assistance at the request of Governor Laura Kelly.

WHEREAS, as a result of the declaration, the Federal Emergency Management Agency (FEMA) activated its Public Assistance grant program to provide assistance to local, state, tribal or territorial governments and certain non-profit organizations for eligible costs associated with emergency work and the repair or replacement of disaster-damaged facilities.

NOW THEREFORE, BE IT ORDAINED AND RESOLVED BY THE BOARD OF COMMISSIONERS OF THE UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS:

Section 1. The Board of Commissioners of the Unified Government of Wyandotte County/Kansas City, Kansas ("Unified Government") accepts any grant or reimbursement funds appropriated to the Unified Government by FEMA, including those previously received, in connection to the major presidential disaster declaration issued by President Donald Trump for severe storms, straight-line winds, and flooding experienced by Wyandotte County from July 17, 2025 through July 22, 2025.

Section 2. The Mayor/CEO, County Administrator, and other

LEGAL NOTICE

officials and employees of the Unified Government are hereby authorized to take such other actions as may be appropriate or desirable to accomplish the purposes of this resolution and ordinance.

Section 3. This ordinance and resolution shall take effect and be in full force from and after its passage and approval.

PASSED AND ADOPTED BY THE BOARD OF COMMISSIONERS OF THE UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS, AND APPROVED AND SIGNED BY THE MAYOR/CEO THIS 7TH DAY OF MAY 2026.

Christal E. Watson, Mayor/CEO Attest: Unified Government Clerk Approved as to Form: Chief Counsel (First published 5-28-26) 1t-The Wyandotte Echo-5-28-26

IN THE MATTER OF THE GRIGSBY ESTATE

IN THE DISTRICT COURT OF WYANDOTTE COUNTY, KANSAS PROBATE DEPARTMENT

IN THE MATTER OF THE ESTATE OF KYLE EDWARD GRIGSBY, DECEASED

Case No. WY-2026-PR-000180 Chapter 59

NOTICE OF HEARING AND NOTICE TO CREDITORS

THE STATE OF KANSAS TO ALL PERSONS CONCERNED:

You are hereby notified that on May 20, 2026, a Petition for Appointment of Administrator Under the Kansas Simplified Estates Act was filed in this Court by Keith M. Grigsby, an heir of Kyle Edward Grigsby, deceased, praying that Petitioner be appointed as Administrator Under the Kansas Simplified Estates Act, and if such request is granted the Court may not supervise administration of the estate and no further notice of any action of the Administrator or other proceedings in the administration will be given except for notice of final settlement of Decedent's estate. Should written objections to simplified administration be filed with the Court, the Court may order supervised administration to ensue.

You are required to file your written defenses to the Petition on or before June 23, 2026, at 9:00 o'clock A.M. on said day in this Court, in Kansas City, Wyandotte County, Kansas, at which time and place the cause will be heard. Should you fail to file your written defenses, judgment and decree will be entered in due course upon the Petition.

All creditors of decedent are notified to exhibit their demands against the estate within the later of four months from the date of first publication of this Notice, as provided by law, or if the identity of the creditor is known or reasonably ascertainable, 30 days after actual notice was given as provided by law, and if their demands are not thus exhibited, they shall be forever barred.

Keith M. Grigsby, Petitioner EVANS & MULLINIX, P.A. David R. Schapker, KS #24596 dschapker@emlawkc.com 7225 Renner Road, Suite 200 Shawnee, KS 66217 (913) 962-8700 (913) 962-8701 (fax) Attorneys for Petitioner (First published 5-28-26) 3t-The Wyandotte Echo-6-11-26

LEGAL NOTICE

IN THE MATTER OF THE FERGUSON ESTATE

IN THE DISTRICT COURT OF WYANDOTTE COUNTY, KANSAS PROBATE DEPARTMENT

In the Matter of the Estate of DANNY ALVIN FERGUSON, Deceased.

Case No. WY-2026-PR-000175 Pursuant to KSA-59

NOTICE OF HEARING

THE STATE OF KANSAS TO ALL PERSONS CONCERNED:

You are hereby notified that a Petition has been filed in this court by Priscella Dean Lowe, sister and the sole and only heir of Danny Alvin Ferguson, deceased, praying for the Determination of the Descent of the following described real estate:

Lots 9 and 10, Block 2, West End Addition to Argentine, now in and a part of Kansas City, Kansas

Commonly known as 1216 South 34th Street, Kansas City KS 66106 and all personal and other Kansas real estate owned by decedent at the time of death. And that such property and all personal property and other Kansas real estate owned by the decedent at the time death be assigned pursuant to the laws of intestate succession.

You are required to file your written defenses thereto on or before June 30, 2026, at 9:00 o'clock A.M., in said court, in the city of Kansas City in Wyandotte County, Kansas, at which time and place said cause will be heard. Should you fail therein, judgment and decree will be entered in due course upon said petition.

Priscella Dean Lowe - Petitioner 11122 W. 72nd Terrace Shawnee KS 66203
